TWENTY-FOUR DEAD IN RENEWAL OF ILLINOIS MINERS WAR TODAY

Reported to be Strike Breakers Who
Were Captured by Striking
Union Miners

BODIES HANG FROM TREES

Others Showed Evidence of Being
Severely Beaten Before They
Were Fired Upon

MINE WORKERS IN BARRICADE

Forced by Superior Numbers to Dis-
arm and 14 of Their Number Are
Shot in Cold Blood.

(By United Press)

Marion, Ill., June 22.—Twenty-four men were slain today in the miners uprising raging in Williamson county. Many of the bodies were hanging from trees and others showed evidence of severe beating before being fired upon.

Martial law seems imminent and the state authorities were getting ready late this afternoon to disband troops sent on haste to the murdering area on word sent to the governor's office.

Those slain were reported to have been strike breakers who were captured by the miners who marched upon the coal properties near here and through superior number, forced the strike breakers to relinquish their positions.

Among the dead were C. K. McDowell, superintendent of the Southern Illinois Coal Company, according to witnesses. Forty-seven of the workers barricaded in the mines, surrendered, according to the story told by those returning from the scene. They surrendered their arms and were believed carried toward Herrin when shooting began.

Fourteen powerless to defend themselves were shot to death, it was said. Seven were seriously wounded. The remainder escaped and were said to be fleeing to all parts of the section.

The attackers at once disbursed. At least five hundred automobiles were reported this afternoon returning to various mining communities in the county.

Most of the bodies were taken to Herrin, according to witnesses.

All was quiet at Marion this afternoon. In the skirmishes of the miners during the morning steam shovels and buildings were blown up and spur tracks were wiped out.

With cessation of hostilities in the mine war district at the strip mine near here today, a careful investigation revealed two dead, two probably fatally wounded, and a score or more slightly injured.

The streets of Marion, scene of wild excitement last night when hundreds of strike sympathizers congregated to advance on employees of the mine owned by the southern Illinois coal company, were deserted today.

Telephone reports from surrounding mining communities declared conditions were nearly normal. A report that a heavy explosion near the mine occurred this morning had not been confirmed.

Joe Pitchovie, Herrin and Jordan Henderson, also of Herrin, are the two known dead. Their bodies are held at the Herrin morgue. Sidney Morrison, Chicago, lies seriously wounded in a hospital at Carbondale. Another miner, whose death is expected momentarily, is in a hospital here.

Colonel Sam Hunter, representing the adjutant general's office, expressed the belief that state troops would not be needed to handle the situation.

Attempted dynamiting of a small dam near the strip mine last night gave rise to the report that a score of miners had been killed.

Darkness halted the battle which raged throughout the late afternoon and early night in which thousands of shots were exchanged.

Three of the men reported dead were said to have been shot in the battle at the strip mine owned by the southern Illinois Coal Company six miles west of Marion. Three of the others are said to have been fired upon while riding on a truck

MASS ACTION TO BE STOPPED IN INDIANA

Miners Decide in Mass Meeting at
Terre Haute to Resort to
Individual Action

COMMITTEE TO MEET LEWIS

(By United Press)

Terre Haute, Ind., June 22.—Mass action including coal miners in Terre Haute which is pending to end the miners strike, is to be discontinued.

Individual action will follow throughout the strike. This was decided at a meeting of the miners held late Wednesday after hearing recommendations from President Hessler of district eleven, United Mine Workers.

Hessler said that mass action was too expensive and was also unsuccessful. The trips to the mines cost between \$100 and \$150 per trip for gasoline and oil.

Speakers on the floor urged individual action in putting a stop to the hauling of coal through the city streets. No action, however, will be taken before Sunday when another mass meeting will be held.

The committee appointed to meet President Lewis to talk over the Kentucky situation will meet him at five o'clock Friday evening at Cincinnati. They will demand that production in Kentucky cease immediately; that the contract between operators and miners of district 23 be repudiated and those responsible for its making be punished according to the laws of the United Mine Workers.

between Cartersville and May, Illinois near the mine.

Six others known to have been in company with strikebreakers, leaped into the Big Muddy river following a battle with a band of ambushed men, supposed to have been striking miners. They were unaccounted for early today.

Heavy firing and reports of loud explosions were heard at intervals during the night.

The number of injured, who are being cared for in Marion, Herrin and other mining towns in the vicinity, may reach 100, it was estimated today.

The battle, which began late Wednesday afternoon, was precipitated by receipt of a message from John L. Lewis, president of the United Mine Workers, declaring that workmen, who are members of the Showmen's Union, were common strike breakers, and had been outlawed by the American Federation of Labor.

Three workers bound for the mines late yesterday afternoon were fired upon near Carbondale and one probably fatally injured. Others in the party escaped through a fusillade of shots by swimming a creek. One man who escaped injury reported the attacking band numbered more than fifty.

Sympathizers of the striking miners, who have been idle more than three months, were reported to have invaded Hardware stores in the vicinity of the mine late in the afternoon, secured arms and ammunition and advanced on the strip mine.

Reports from the mine early today were only two were killed and that the employees of the mine would be withdrawn during the day. The situation was quiet this morning.

Springfield, Ill., June 22.—Three companies of the 130th infantry were under orders today to be prepared to move into the Williamson county mine field trouble zone at a moment's notice, Adjutant General Carlos Black's office indicated today.

While the national guard headquarters refused to make public the specific orders issued to the company commanders, it was indicated several thousand fully armed and provisioned men could reach the riot zone in eight hours.

The home stations of the companies are at Cairo, Mt. Vernon and Salem.

ELLIS IS NOW A CAPTAIN

Local Salvation Army Leader Re-
turns From Training School

Earl Ellis, the leader of the Salvation Army corps here for the past several months, has returned from a several weeks course in the Army training school at Chicago, and is now a captain. He was formerly an envoy before taking the special training which fitted him for the promotion.

Capt. Ellis announced today that special meetings would begin at the Army church tonight and that Capt. Millman, D. D., of Newcastle, would speak.

WINS A BANNER FOR EFFICIENCY

Rushville Young Peoples' Society
Successful in Contest at Indiana
Presbytery Meeting

SPRINGHILL TAKES SECOND

New Officers Are Elected and Caledonia Selected For 1923 Convention at Closing Sessions

The closing sessions for the Indiana Presbytery of young peoples societies, were held Wednesday at the First United Presbyterian church in this city, and the Rushville society was awarded the Efficiency banner, with Springhill second. The banner was awarded along the line of 10 points and Rushville proved most efficient, carrying 8 points with Springhill 7.

The business sessions were held in the afternoon which included the election of officers for the next year, and Byron-Wainwright of this city was elected for the fourth consecutive year as treasurer.

The following officers were elected by the delegates:

President, Miss Mary Moore, Springhill; first vice-president, Earl Watt, Bloomington; second vice-president, Miss Helen Culbertson, Woodruff Ave., Indianapolis; recording secretary, Miss Goldie Jessup, Rushville; treasurer, Byron Wainwright, Rushville; press secretary, Miss Rachael Marrow, Princeton; Corresponding secretary, the Rev. E. G. McKibben, Rushville.

Dr. T. H. McMichael of Monmouth, Ill., gave an interesting address last evening on the subject, "Builders of the Past." He reviewed interesting historical characters from the past to the present day. He mentioned interesting historical places which he had seen on his journey a few years ago through England, Scotland and Holland, taking his hearers to the home of Sir Walter Scott and John Knox and also to Stratford-on-Avon where Shakespeare lived and wrote. In conclusion he set forth the fact that all great writers and speakers kept a copy of "the old Book"—the Bible, on their study tables, from which they gleaned historical and scriptural facts, together with the excellent literary values found therein.

The next Presbytery convention will be held at Caledonia, in the southern part of the state, sometime during June, 1923.

The closing feature of the convention was the pageant, "Cindy's Chance," given by the Rushville society under the direction of Mrs. E. G. McKibben. The pageant was given in four scenes and was well received.

LEGION MEETS TONIGHT

Rush post No. 150 of the American Legion will meet tonight at 8 o'clock in the post's club rooms in West Second street.

"SLEEPER" ARRESTED TODAY

Chief of Police O'Neil placed a man in jail at noon today, who was intoxicated and will be arraigned probably in the morning before Justice Stech. The man, who was said to be too far gone to reveal his name, was asleep in a buggy passing down Main street, when the police officer jumped in and headed the horse toward the jail, and where the man was carried inside and put to bed.

JURY IS HEARING A REPLEVIN SUIT

Court Occupied With Case of Peoples
State Bank of Indianapolis Vs.
Hall Brothers

\$1,000 JUDGMENT IS SOUGHT

Notes Given For Truck Involved in
the Trial—Blanch Alzman
Denied Divorce

The jury in the circuit court was occupied again today with a case, the matter before them being a suit of the Peoples State Bank of Indianapolis against Hall Brothers of this county, the complaint being to replevin an automobile truck and to collect on notes, demanding \$1,000 judgment.

The case was expected to be completed today. The matter involved a sale of an automobile truck to Herbert H. Hall and Russell Hall, in which several notes were given in payment for the truck, and which are alleged to be past due. The defense maintains that the truck was misrepresented and was a bad purchase.

Judge Sparks Wednesday refused to grant Mrs. Blanche Alzman a divorce from Thomas O. Alzman, after having had the evidence under consideration since May 27.

The jury which heard the case today was composed of Joel Carson, L. B. Miller, Alvan Moor, Will Inlow, Ollie Offutt, Job Stevens, William A. Caldwell, Jake Ricketts, Ben Reeve, James Williams, Morrison Beaver and Al Linville.

Two new suits were filed today in the circuit court, one being a suit for divorce filed by William H. Campbell, 828 North Arthur street, against Martha Campbell, the complaint alleging that his wife used profane language, was unsanitary and failed to provide his meals on time.

The complaint alleges that they were married June 5, 1916 and separated June 21, of this year, and that three children were born to them, and he asks that the court make some satisfactory disposition of their custody.

John D. Hiner is plaintiff in a suit filed against Leroy (Roy) Carr, the complaint being on an account and to foreclose a garage lien, demanding \$35 judgment. The complaint involves the sale of an automobile tire, which is alleged to have never been paid, and that a lien had been entered in the recorder's office against the car.

WALDRON MAN IS ELECTED PRESIDENT

The Rev. R. O. Pearson Again Chosen
Head of Epworth Leagues of
Connersville District

18 LOCAL MEMBERS ATTEND

The annual convention of the Epworth League societies of the Connersville district, Methodist churches, ended Wednesday at Liberty. The St. Paul's M. E. church of this city was represented by 18 members of the local society. The Rev. R. O. Pearson of Waldron was re-elected president of the district organization, and the next annual convention will be held at the West Street church, Shelbyville.

The outstanding features of the convention this year was the large attendance, as 300 visitors registered, and the two addresses delivered by Bishop Wilbur Thirkield of Mexico, who is in charge of the activities for the League in that country.

The meeting was pronounced as one of the best district conventions ever held in this district. Dr. J. M. Walker, superintendent of the district, of this city, attended, as did the Rev. Clyde S. Black, the Rushville minister. The convention opened Monday noon and closed Wednesday noon.

DRINKS HALF PINT POISON

Richmond, Ind., June 22.—Roy Davis, 27, an employe at C. and O. shops, committed suicide last night by drinking a half pint of poison.

CORPORATIONS ARE CONSIDERED BY BOARD

Tax Reviewers Will Notify Each Incorporated Business of Amount
of Assessment

OTHER CONCERNS REVIEWED

The county board of review this afternoon began the review of assessments of Rush county corporations. After the work is completed, each incorporated business will receive a notice notifying them of their assessment and whether or not it was raised. Representatives of the concerns may appear before the board any time before the board adjourns, July 12, if they have any complaints to make.

The board this morning completed reviewing the assessments of unincorporated businesses in the county. Concerns of this character are required to file the same kind of a supplemental sheet as incorporated firms, in addition to their regular personal property assessment sheet. These are compared by the board and frequently, where the statement shows more than the personal property assessment, the difference is added to their total assessed valuations.

The board has also finished passing on the mortgage exemptions. Each property owner is entitled to half of the sum for which their property is mortgaged up to a maximum of \$1,000, and in some cases taxpayers claim more than they are entitled to. The board has also passed on soldiers' and soldiers' widows' mortgage exemptions.

ONE HUNDRED BOYS IN SUMMER WORK

Youngsters From Fourth to Ninth
Grades Enjoy Swimming Hikes,
Drills and Games

J. H. S. GIRLS FORM A CLASS

Boys Respond to Appeal From City
Park Board to Help Clean
Park and Mow Grass

Approximately one hundred boys, in addition to a number of junior high school girls, are taking the summer work being given under the direction of A. F. Cotton, physical director in the schools, who has been engaged for the first two months of the summer vacation by the Rushville school board.

Thirty boys of the fourth and fifth grades compose one class, thirty-five boys of the sixth and seventh grades another class and thirty-five of the boys in the eighth and ninth grades compose the third class. The junior high school girls compose the fourth class.

They all have regular periods during the week in which they engage in hikes, swimming, baseball, basketball, football, setting-up exercises, flag signal practice, bird study and insect study.

The youngsters have taken to the summer recreation work with much vigor and the way they have received the innovation indicates that the school board made no mistake in initiating this course.

Plans are already under way to close the course with a camp for boys, details of which will be announced within the next few days.

Boys of the fourth and fifth grades get in three or four periods during the week, at which they are taught knot-tying, bat ball, swimming, setting-up exercises, drills and enjoy hikes to the country.

Boys of the sixth and seventh grades have practically this same program, with indoor baseball, basketball and insect study added. The program for the eighth and ninth grade boys includes in addition to this, football and flag signal practice. The junior high school girls engage in practically all of the sports which the boys enjoy, and in addition study birds.

The boys in the classes willingly responded to an appeal from Walter F. Easley, a member of the city

MEMBER OF PARLIAMENT ASSASSINATED

Field Marshal Sir Henry Wilson
Killed in Front of His London
Residence Today

ASSASSINS ARE CAPTURED

Two Members of Irish Republican
Army Put up Running Fight
After the Killing

ONE POLICEMAN IS SHOT

Murder Believed Part of Final Blow
to Assail Opponents of Irish
Republican Party

(By United Press)

London, June 22.—Two soldiers of the Irish republican army today put to death Field Marshal Sir Henry Wilson in front of his residence at Eaton Square here.

The assassins were captured after they had put up a running fight and shot three policemen and one civilian. One attempted suicide following arrest.

The murder of Wilson, a member of parliament from Ulster, was, it is believed, part of a final blow to assail the opponents of the Irish republican party.

Guards were redoubled at White Hall and at Lloyd George's residence in Downing street. One of the policemen wounded in the running gun fight died later in the hospital.

Police guarded the Eaton Square district this afternoon in the hope of finding four men believed to have been accomplices of O'Brien and O'Connell.

Owing to recent political developments, Wilson was leader of the Ulster cause in England. He was also head of the Ulster defense under Sir James Craig.

An official of the American relief administration assisted in the capture of the murderers.

Describing the attack to the United Press, this official said:

"Sir Henry was alighting from an automobile in front of his home in Eaton Square. The assassins were on the side walk, waiting for him. They seized him and shot him dead.

"The murderers then walked into the center of the street and began to make their getaway. They waved revolvers and a policeman who attempted to halt them was shot through the stomach.

"The assassins proceeded about four or five blocks, shooting at intervals. They wounded a civilian in their flight.

"An unarmed policeman ahead of the murderers awaited their approach at a street corner. As they came to the corner, he leaped out and struck one of them on the head with his night stick, felling the man. The three or four men around the street grabbed the other man and pulled him down.

Sir Henry Wilson was 58 years old. He entered the service in 1884 and won many decorations in his rise to field marshal. He was created a baronet in 1919.

In 1914 when the war broke out Wilson was assistant chief of the general staff under Lord French. He served as liaison officer with the French and later represented Great Britain at Versailles when the supreme military council was established in 1917. He was chief of the imperial general staff and a member of Lloyd George's cabinet from 1918 until last year.

The earl of Cavan is now chief of the imperial general staff.

MAYOR'S WIDOW ACCUSED

Richmond, Ind., June 22.—Mrs. Viola Zimmerman, widow of Dr. W. W. Zimmerman, former mayor of this city, was indicted by the grand jury here yesterday on charges of assault and battery and assault and battery with intent to kill. She was released on \$1500 bonds. Mrs. Zimmerman was arrested on complaints made by Mr. and Mrs. Skeles W. Bricker.

Jim Watson In Action

A Washington dispatch to the New York Telegraph speaks thus of Senator James E. Watson's speech in the senate on the tariff bill recently: The visitor in Senate galleries these days, gazing into the faces of the statesmen below, rarely sees a smiling visage on the Republican side, most of the majority solons having a worried look as though oppressed with the weight of insoluble problems. This is the rule, but the other day when Senator Jim Watson of Indiana got the floor for a long oration of moving eloquence and flowing diction, the air of settled gloom habitual to his brethren was for the time replaced by smiles of beaming beatitude. Be it known that Senator Jim, in all sincerity, is a modern Demosthenes; and his talk which was a masterful defense of the protective tariff system, put more heart into his associates than any other event of recent date.

It wasn't what he said—his arguments, indeed, were of the traditional stock variety—but it was Jim Watson in action, his reverberating voice, his sonorous sentences, his gorgeous gesticulation. As a gesticulator he has every public speaker in America completely outclassed. Creator in his vivacious bandmaster antics can't hold a candle to the gentleman from Indiana. He slaps the palms of his hands together with a smack whose report, if broadcasted, might be heard to the Golden Gate; next he smites his sides as though his body were a punching bag; and then to drive home his point, he pounds his desk with a fury that would seem to jeopardize the furniture.

All the time, above the roar of the physical disturbance, the thread of silvery oratory goes on in unbroken cadence and broadening sweep. He has the good sense to know when to cease and at the finale there is a demonstration in his honor and many Senators come over to press his hand and utter congratulatory words. A very popular and likeable man he is, and when he gets before a mixed assemblage with his gestures and his fervid, camp-meeting line of talk, he can sway his hearers as he wills, for his knowledge of mass psychology is nothing short of genius.

Senator Watson plainly enjoyed

the demonstrations in his honor, on the completion of his speech, and the compliments of his fellow partisans; but doubtless he was most highly pleased when Senator Stanley of Kentucky came over from the Democratic side to add his tribute of congratulation. Stanley, who knows he can refute and demolish every spacious argument that Watson advanced the Kentuckian being as sure of the soundness of the tariff-for-revenue-only doctrine as he is certain of the plan of salvation—yet he came to tell his good personal friend, whose principles he hates, that he made a splendid talk.

MATCH PLANT EXPLOSION

Akron, Ohio, June 22—One person was probably fatally injured and three others seriously burned in an explosion of the plant of the Diamond Match Company at Barberton, near here, early reports today said.

Farmers Praise Remedy

Testify to Value of R. X. 1000 in Treatment of Hogs

In Troubles After Vaccinating, Termed Mixed Infection

Dr. F. E. Schumaker, who is treating hogs with R. X. 1000, a remedy being introduced in the county by Dr. W. Nolan, who was alleged in a recent story to be defrauding farmers, today offered statements from farmers whose hogs have been treated with the preparation. They are as follows:

To whom it may concern:
Rushville, Ind., June 16, 1922.
Dr. F. E. Schumaker—

Enclosed please find check for \$100 for the medicine R. X. 1000.

The pigs are straightened up all right and to say I am pleased is putting it mild.

CHARLIE J. FISHER,

Rushville, Ind.
Dr. F. E. Schumaker of Rushville, Ind., treated fifty-seven sick pigs with R. X. 1000 and am pleased to state they have all recovered and can not seem to get enough to eat. I recommend both Dr. Schumaker and R. X. 1000 to my friends who are in need of veterinary services or who may have sick pigs.

HARRY VOGEL.

Sirs:—Have had 98 sick pigs treated with R. X. 1000 and am well pleased with the results, not losing a pig and expect to have on full feed in two weeks from date of treatment.
Yours truly,

J. H. TAPLEE & KENNETH HELMAN.

BURROUGHS AGIN

Veterinarian
Ladoga, Ind., Nov. 11, 1921.

To whom it may concern:
I have used R. X. 1000 in the treatment of swine diseases, commonly known as mixed infection with surprising results and satisfied clients.
B. AGIN, D. V. M.

GOSSARD BREEDING ESTATES
Martinsville, Ind.

To whom it may concern:

We have used R. X. 1000 for the prevention and cure of Swine Plague and have found it to be the best product for this purpose that we have ever tried. In fact, we have never had any trouble of this kind since using it, and we take great pleasure in not only recommending it, but in advising, that every man interested in either pure bred or feeding hogs, provide himself with this product and feed it according to directions.
Yours truly,

A. F. SINEX, Superintendent.

If your pigs are sick, call Drs. Sharer and Schumaker, Rushville, Ind. Phone 2435.

HEAVY SALES OF FARM PROPERTIES

Several Reasons Given For This Increase in Business Which is General Throughout Country

CHANGE IN METHODS SEEN

Unusually heavy sales of farm properties are reported this spring by leading dealers in that kind of real estate. Several reasons are given for this increase in business, but the most notable is an extraordinary change that has taken place within the farm business itself.

Formerly there were few transfers of farm property in the spring after the season had become too late to do any spring planting. Men who wanted farms would not buy them because they could not get their crops started in time to provide themselves with either a winter's supply for themselves and their families, or assure themselves of an income from their products in the harvesting season.

These handicaps have been overcome by including growing crops with farm properties sold in the spring and summer and harvested crops with farms sold in the winter.

Cleveland Produce

Cleveland, June 22.—Butter—extra in tubs, 42 @ 42 1/2; prime, 43 @ 43 1/2; firsts, 40 @ 40 1/2; packing stocks, 20 @ 22.

Don't Be Fooled --

"FOOL me once," says the proverb, "and it's shame on you. Fool me twice and it's shame on me."

Don't be fooled when it comes to spending your money. Patronize the merchants who have a reputation for fair dealing and honesty. Such motives must actuate the consistent advertiser. The man who invests real money in building a reputation for himself and his merchandise cannot afford to risk any of it by taking unfair advantage of his patrons.

The consistent advertiser pays money to tell you about his goods. He knows they are good—he backs them with his money because he believes they will satisfy. Only merchandise which is consistently good can be consistently advertised. So advertising protects you against fraud and inferiority. It tells you what is new and good, making you a wise buyer. It saves you money by pointing out for your consideration only the best products and the best places to buy them.

Thrifty men and women read the advertisements. To them it is a plain every-day business proposition—a duty they owe to themselves and to their pocketbooks.

Don't be fooled.

Don't spend your money blindly. Read the advertisements.

PERSONAL POINTS

—Dr. J. B. Kinsinger transacted business this afternoon in Indianapolis.

—Charles Brown was among the business passengers this morning to Indianapolis.

—Mrs. Lee Endres and Mrs. Charles Wilson were visitors in Indianapolis today.

—Mr. and Mrs. Ed Poundstone spent today in Indianapolis visiting friends and relatives.

—Mr. and Mrs. Will Rodebaugh and Dr. and Mrs. O. H. Reynolds went to Sumner today for a visit with relatives and friends.

—J. N. Perkins and grand daughter, Harriet Perkins, of Rising Sun, Ind., are here for a few days visit with Mr. and Mrs. Fred A. Caldwell.

—Mr. and Mrs. Pete Hill and Mrs. Nellie Ewbank of Falmouth went to Oldenburg today to attend the commencement exercises at the Oldenburg school.

—Master Emerson Foster, accompanied by his aunt, Miss Dorothy Johnston, has returned home after a ten days visit with his grandparents in Richmond.

—The Misses Emily Marie, Ruth and Mary Black, little daughters of the Rev. and Mrs. C. S. Black, are spending the week in Midway the guests of Mr. and Mrs. J. G. Hammond.

—Mrs. E. F. Rardin and children of this city and Mrs. Frances I. Rardin of Westfield, Ill., who have been visiting here, left for a few days visit this morning with Mrs. Rardin's mother, Mrs. Alice A. McDaniel of Brownsburg.

—The Misses Katherine Parker, Marjorie Buckley, Edith Lower, Lolita Stiers, Orpha Wagoner and Marie Krammes, and Mrs. W. E. Jones and Harold Stiers and Donald Meid have returned from Liberty where they attended the Epworth League convention. They represented the Pleasant Ridge Epworth League.

APOPLEXY FATAL

Angola, Ind., June 22 — Amos Perry, 60, years old, a prominent citizen of Montpelier, Indiana, committed suicide yesterday at Lake George. Ill health is said to have caused him to take his life.

NEW METHODS IN TEACHING MUTES

Sign Language is Fast Disappearing in State Institutions For the Deaf and Dumb

ARE TAUGHT HOW TO SPEAK

Hearing is Also Being Improved on by Difficult Manner in 15 Classes Out of 25 State Classes

Indianapolis, Ind., June 22—Deaf and dumb persons in Indiana are able to use their voices in talking in some cases, as well as a person whose hearing is not defective.

Some who are "stone deaf" and who have not been able to hear since they were born, are able to deceive persons into thinking they can hear by talking fluently.

The method of teaching sign language in Indiana is passing, according to O. M. Pittenger, superintendent of the State School for the Deaf.

Of the twenty-five classes at the school, methods of using the voice are taught in fifteen of them, Pittenger said.

"This is a very difficult problem," he said, "for the child has no idea how a sound is made, or even there is such a thing as speech."

"A child of seven—the age that most of them are taken into the school—must learn to talk just as a baby learns, but a baby can hear the different sounds made by the vocal chords and the different modulations and expressions made by the mouth and lips. The deaf child has a decided advantage. The instructor makes a sound and places the pupil's hand on her throat so that he may 'feel' the pitch of the sound. Then the child attempts to make a sound with his hand on his own throat so that he may 'feel' the pitch of the sound. Then the child attempts to make a sound with his hand on his own throat for comparison. This is repeated until the vibrations in the instructor's throat feel the same as his."

"All of this is repeated through a great variety of sounds. Instruction is given in movements of the mouth to get the formation of the different vowels and consonants and then in the information of words. This tedious practice is performed for hours by a child before a mirror trying to imitate the teacher. These are just a few things that the deaf person must do to get from under his handicap."

Scientific Ghost Hunter Will Snap Picture Of A Cat's Spirit

Dr. Carrington. Noted Investigator of Ghostly Beings, Will Conduct Experiment to Prove His Belief That Spirits Exist, Using a Cat For His Subject. Devices are all Prepared For His Extracting Principles, and Researchers Will Watch Developments With Interest.

By JACK DARROCK
(Copyright 1922 by U. P.)

New York, June 22.—Convicted that ethereal bodies exist, Dr. H. Carrington, noted investigator of ghostly manifestations, intends to photograph the astral body of a cat he announced today.

This experiment will be conducted in the laboratory of the American physical institution where Dr. Carrington works among many strange machines and ingenious devices designed to help him probe into the unknown and discover whether spirits exist there.

Dr. Carrington might be called a "scientific ghost hunter." He is investigating alleged ghost phenomena with an open mind, but with purely scientific tools. According to present plans, the cat will be placed in a glass box, just large enough to hold it. This box will be placed in another glass box about five inches larger. Dr. Carrington and his assistants will attempt to remove the astral body from the physical body of the cat by means of anaesthesia. The astral body will then pass through the first box as far as the second box, which will contain an atmosphere of water vapor. (It is

the theory of the researchers that when the cord which connects the astral body with the physical is broken, death is the result).

The air between the two glass boxes will be reduced. As the pressure of air is reduced it is thought the astral body will give off radiation and, if so ionization will take place; that is little electrical parts in the atmosphere will condense on the surface of the astral body like dew drops gather on grass.

This will outline the astral body, according to Dr. Carrington, and will permit the taking of a photograph. Dr. Carrington believes that the mysterious "noises" declared by many to be spooks and accepted by many scientists as spirits and ghosts, are phenomena of the mind and body, as yet undiscovered.

By means of various instruments, such as the kymograph, which records the pulse and respiration; the sthenometer, which registers the radiation of the body, the volometer for testing the pressure of the human mind, and the galvanometer, used to register delicate electric changes of the body, Dr. Carrington hopes to determine the credibility of the mysterious phenomena.

The kymograph, Dr. Carrington said, makes it possible to expose fraud in connection with spurious psychic manifestations. This instrument is placed under the arms of the medium. It keeps constant record of the pulse and respiration during the entire experiment. If phenomena occurs not due to the exertion of muscular effort no violent changes are recorded. But, if

the medium resorts to fraudulent methods violent changes are recorded and trickery is thereby detected.

OLD PAPERS CURIOSITIES

Copies Containing Account of Washington's Death Displayed

Copies of the Ulster County Gazette, published Saturday, January 4, 1800, at Kingston, N. Y., containing an account of the death of President George Washington, were among the interesting relics on display at the Rush county Centennial celebration last week. One copy is the property of Mrs. W. D. Root, corner of Perkins and Fifth streets, and the other belongs to Lowell Collyer, photographer. One of the papers was on display in Abercrombie Brothers jewelry store window and the other in McIntyre's shoe store window.

These are believed to be the oldest newspapers in existence in Rush county. These copies were Number 88, Volume 2.

ONE HUNDRED BOYS IN SUMMER WORK

Continued from Page One
park board, to assist in cleaning up the park. They worked Tuesday afternoon mowing the grass and doing other chores to make the park look more respectable. This morning all of the boys helped Mr. Easley prepare a baseball diamond in the northeast corner of the park for their games.

The park board also has in mind the erection of a well house over the drinking fountain at the park, piping water to the tennis courts so that a drinking fountain may be installed there, repairing the wading pool for the use of children and the

addition of more playground equipment and the repair of that now being used in the park.

Chinese Poetry vs. Freud.

Chinese literature could exercise a beneficial influence on our own. It proves for example—and this contrary to the doctrine of our romantic Freudians—that a great poetry can exist by other virtue than its sexual interest. It offers a resolution of our too-favorite antinomy between romanticism and classicism, for it is a literature both human and humanistic; a literature that is classical without being mummified. American poetry could learn this from the Chinese.—Malcolm Cowley in the Dial.

BE CHARITABLE—Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such a one in the spirit of meekness; considering thyself, lest thou also be tempted.—Gal. 6:1.

Women and The Tariff

Since women have the right of franchise and are taking a larger interest in public affairs, an effort is being made to deceive them about the trade policy of the United States. The free traders are resorting to the old trick of asserting that a protective tariff will force them to pay an excessive price for the goods they use. When the pocketbook is in question, the women are very naturally interested.

The plea of the free trader has always been to the consumer, and the devil take the hindmost—the producer. But it is a very safe guess that the average American woman has enough discernment to know that the first essential is pro-

perous production, for without it there would be no satisfactory consumption. The wife of a producer is interested in her husband's earning power and she is not very likely to vote for a policy which will take away her husband's earning power in order that she may buy cheaper commodities made in Europe, Asia, South America, Africa or Australia.

The free trade policy is "buy where you can buy the cheapest." That means in actual practice, that we should buy our wool in Australia or South Africa, our silk goods in the Orient, our hides in Mexico, our beef in Argentina, cotton and wool manufactures in England, cutlery, optical goods, and various other commodities in Germany, glassware in Belgium, lemons in Italy, and so on down the list. If we are to maintain our American standard of living, the American producer cannot successfully compete with the prices foreign producers are able to quote, and the American producer, under a free trade tariff would, in normal times, sell only what the foreigner could not supply.

"If we are to buy abroad, as the free traders would have us to do, in the alleged interest of the consumer, then the American producer must either close down entirely or greatly curtail his production. Every producer who diminishes his operation reduces the number of his employees and the market for American goods is thus further curtailed.

"It is an economic fact often repeated but not fully appreciated, that a dollar spent for productive purposes in the United States changes hands ten times in a year. The wage earner spends the dollar for food, the merchant pays it over to the wholesaler, the wholesaler hands it on to the manufacturer or packer, the manufacturer uses it to buy from the farmer, and the farmer buys clothing, and so on. If that dollar be sent to Europe or Asia, it circulates there, doing the service it should do in America.

dible but it is true that this, the greatest producing nation in the world, was buying more than it was selling, and for the simple reason that a free trade tariff law made it easy to import foreign goods. As a result, American mills were closed and there were millions of men out of employment until the war in Europe shut off imports and created an unprecedented foreign demand for American goods.

In the fact of these records and the indisputable fact that we must have prosperous producers before we have consumers, it is incredible that any considerable number of women will be misled into voting for the privilege of buying goods in foreign lands at prices with which American industry cannot compete.

The Hodge-Podge

By a Paragrapher With a Soul

We were always taught that it costs nothing to say please, but that little word in telegrams cost Americans one million dollars last year.

The word is being passed along the line that the miners' strike is a failure, but where was there ever a strike that was not a failure?

Secretary of War Weeks has evidently forgotten that he is just the war secretary and not the man who sets the moral standards for the country.

It's a little late to be fighting the civil war over again, but the United Confederate Veterans have decided that Lincoln was responsible for forcing the conflict on the south.

A hot temper is an expensive luxury, as Babe Ruth has discovered.

The American Federation of Labor has declared for a congressional veto of supreme court decisions, indicating that the organization is not entitled to use the word American.

IN THE WORLD OF SPORT

RECORD SWIMMER WILL TAKE PART

John Weismuller, Man Who Broke
Four Swimming Records in One
Day, Will be at Broad Ripple

AT THE SWIMMING CARNIVAL

Committee in Charge of Events Are
up Against it in Finding Swimmers
Who Can Compete With Him

Indianapolis, Ind., June 22—With the series of recent record breaking performances by Johnny Weismuller, of the Illinois Athletic club, the managers of the swimming carnival to be held in the Broad Ripple pool at Indianapolis, August 10, 11, 12, are confronted with a real problem. The problem is to get competition for Weismuller. There are plenty of good swimmers among the athletes of America, but few good enough to push Weismuller.

It was about one week ago that Weismuller smashed four world's records in one day. He covered the 400 yard distance in 4 minutes and 40 2-5 seconds, which breaks the record by 14 seconds.

He reduced the time for the 400 meters from 5 minutes, 14 2-5 seconds to 5 minutes, 8 1-5 seconds. Weismuller set a new mark in the 500 yard swim, doing the distance in 5 minutes, 10 seconds. In the 500 meter swim, he reduced the time from 5 minutes, 56 3-5 seconds to 5 minutes, 52 seconds.

Paul Jordan, director of the big swimming carnival, that is being staged under the auspices of the Indianapolis Athletic club with the sanction of the Indiana Amateur Athletic union, last year brought together in a 200 yard national championship Norman Ross and Lady Langer, two world's record holders. Weismuller was entered in the same race at the Broad Ripple pool. He proved the dark horse and won the race.

This Time Last Year

After winning six successive games, Red Faber, Chicago, was stopped by Cleveland.

Tex Richard announced that the capacity of the Jersey City arena built for the Dempsey-carpentier fight had been increased to 91,613.

SPORT CHATTER

Ollie Pickering, a youngster of fifty-three, is to manage a team in the Kitty league and perhaps take a turn in the outfield or pinch hit occasionally.

The Salt Lake club has released Bill Thompson, minor leaguer, who tried to pull a comeback after spending two or three years in industrial ball.

New Haven club purchased Frank Woodward, leading strike-out hurler of the Eastern league last year, from the Washington club of the American league.

The Atlanta club gets another bit of medicine from Commissioner Landis, who for some reason or other has refused to reinstate Erskine Mayer.

Alfred Nelf, a cousin of Art Nelf of the New York Giants, won't make his mark in baseball just yet. He has been released by the Terre Haute club after a brief trial.

HARD TO HURL SLOW BALL THAT IS GOOD

It takes ability to throw a slow ball. This delivery, generally thought a matter of easy accomplishment, is extremely difficult. Fast ball pitchers have a hard time of it when they try to serve a slow ball. Curve ball pitchers are likewise troubled by the slow one.

The average pitcher fails on his slow ball because of the way he delivers it. He tries to disguise it and goes through various extra motions to make the batsman believe the fast ball or curve is about to be delivered. Smart batsmen have long since come to recognize the coming of a slow ball by the extra effort on part of the pitcher to disguise the delivery.

Still, a large number of pitchers maintain that a slow ball, whether recognized or not, is most important as it throws the batsman off his stride and makes him look for it.

RUTH'S GROUCH IS HURTING HIS HITTING

Home Run King Not Capacitated To
Carry Mental Burden And Keep
His Eye On Ball

ASSUMES ROLE OF A MARTYR

By HENRY L. FARRELL
New York, June 22 —Babe Ruth is getting the idea that he is down and that every one is taking a lusty pedal swing at him.

With his mind running on this track, the Bam is greasing the slides ahead of him because he is not incapacitated to carry a mental burden and keep his eye on the ball.

As long as he keeps one ear tuned to the stands he will always hear something that will sink under his hide and he can't take it.

New York is not bothering about the number of umpires that he can whip but is pondering over the question of whether he is "through."

He may never start hitting as long as he assumes the role of a martyr and casts about for sympathy. If he slumps in his home run hitting, he is through with major league baseball because that's all he can do.

Ruth is a high-strung, nervous, temperamental individual with a most sensitive disposition. He is entertaining a terrific grouch that will keep him just where he is if he doesn't come out of it.

BATTLE FOR OPEN CHAMPIONSHIP STARTS

Ted Ray And J. H. Taylor. Take
Lead Among Early Players
With Cards Of 73.

WALTER HAGEN IS FAVORITE

Sandwich, England, June 22 —Ted Ray and J. H. Taylor, two British players led the field at the close of the first eighteen holes in the British open golf championships. Ray and Taylor both went around in 73.

G. Faulkner was second with a 74 and seven players were tied for third place with a 75, including Jim Barnes, the American champion, and Audrey P. Boomer, who drove off first this morning.

Walter Hagen, American favorite for the title, was next with a 76. Jock Hutchinson defending champion and Joe Kirkwood, the Australian, both turned in a 79.

Roger Wethered, regarded as one of the British hopes, turned in a card of 76, while Abe Mitchell came through with a 79.

George Duncan and "Alec" Herd both turned in scores of 76.

The Score Board

Yesterday's hero—Ed Rommel, Athletic pitcher, let the hard hitting Browns down with four hits, got two singles in four times up and won 5 to 0.

Scoring two runs in the 9th inning, the White Sox beat Washington, 5 to 4 and moved into a tie for fourth place with the Cleveland Indians.

Bunched hits off Olson and an error by Rigney broke the Tigers' winning streak of eight straight games and the Red Sox won, 9 to 8.

Two homers by Parkinson and one by Lee were all the tallies the Phils were able to get off Vic Aldridge and the Cubs won, 6 to 3 in a six inning game.

Three runs scored by a rally in the tenth inning gave Brooklyn a weird win over the Pirates, 15 to 14.

With Babe Ruth again on the side lines the Yanks got out of their slump with vengeance, rapped sixteen hits off two Cleveland pitchers and won, 7 to 3.

Yesterday's Home Run Hitters

Parkinson, Phils, 2, total 7.
Lee, Phils, 1, total 5.
Rowher, Pirates, 1, total 2.

Steals Another Nest.

There are a few birds that lay their eggs in the nests of other birds. The cuckoos of the Old World have this habit, while with us the cow-bird is the guilty one. In either case only a single egg is deposited.

Norma Talmadge At Princess

"Love's Redemption," with Norma Talmadge in the stellar role, which is at the Princess again today, was adapted for the screen by Anthony Paul Kelly, from Andrew Sout's novel, "On Principle," and was directed by Albert Parker. Harrison Ford and Montagu Love play the principal parts opposite Miss Talmadge. Others in the cast are Cooper Cliffe, Michael M. Barnes, E. Fernandez, Fraser Coulter, Ida Waterman, Marie Chambers and Charles Brown.

Many of the scenes in this picture were made in the West Indies where Miss Talmadge and her company spent nearly four weeks. The story is laid in a small tropical island, where the thermometer is about 130 degrees, and the population principally black, with the exception of the unlucky younger sons of English families who are condemned by their parents to work out their own salvation. But just as a pond lily grows in the darkest mud, so Jennie Dobson, nicknamed "Ginger" (the part played by Norma Talmadge), blossoms to lovely girlhood, despite the evil surrounding her on all sides. Her own fineness of character, high ideals, and noble purpose, eventually have their effect upon the man she loves. How she brings about his redemption, when he, too, is on the point of giving up the struggle, forms one of the most interesting plots in which Miss Talmadge has ever appeared.

At The Mystic On Friday

The ability of the typical young American to meet any emergency that may arise is demonstrated in "The Black Bag," Herbert Rawlinson's latest Universal production, which will be shown at the Mystic theatre, Friday. As Billy Kirkwood, an energetic young business man, Rawlinson goes to New York in quest of a mildly exciting vacation. Fate had selected him to play

an important part in a melodrama, leaving him to shape his own role. He plays his part well, not knowing what it's all about.

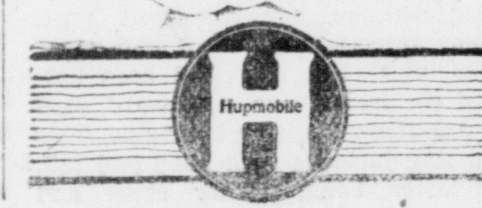

It all starts in a New York cafe where he meets an attractive young woman. She is trying to evade a man following her. Kirkwood meets her again at a fashionable beach resort and their interest in each other increases. Then Kirkwood is told she has stolen a diamond necklace. Is he unwittingly aiding a criminal instead of protecting a defenseless girl?

This puts Billy in an embarrassing predicament because he has fallen in love with her. He can't forget that even if she is a thief. He overpowers a burglar in her home and takes the necklace on his person. The working out of the story under the direction of Stuart Paton has been excellently done. The mystery is maintained until the very last. The film play is based upon the novel of the same name by Louis Joseph Vance.

Hupmobile

Its great economy, its very small repair costs, its day-after-day reliability, long life, and high re-sale value are the things that make the Hupmobile worth more.

PROHIBITION IS BLAMED

Dr. T. M. Alderman Speaks to Eclectic Medical Association

(By United Press)

Indianapolis, June 22.—Prohibition has increased crime and insanity in the United States, according to Dr. T. M. Alderman of New York City, who addressed the National Eclectic Medical Association here last night.

This is due to two causes, Dr. Alderman said. First, prohibition has stopped the outlet for certain innate tendencies of human nature; and second, physical harm resulting from bad liquor often leads to mental unbalance. War also is a contributory cause, Dr. Alderman said.

Woman's Nightmare is Cause of a Police Run

Indianapolis, Ind., June 22.—A woman's nightmare caused a run of the police emergency squad here.

Mrs. A. F. Jensen telephoned police headquarters she heard voices and thought burglars were trying to break in.

A five-mile run by the emergency squad. No burglars.

H. E. Robertson said he and his wife were sleeping in a tent in their backyard and Mrs. Robertson had a nightmare. The noise awakened a dog. The dog barked.

SCIENTISTS MEET IN A CONVENTION

Problems Of Harnessing Colorado River Is Big Issue With Pacific Division Of Experts

MEET AT SALT LAKE CITY

Besides This Discussion, Conference Will Be Held By Affiliated Societies On Research Work

(By United Press)

Salt Lake City, Utah, June 22.—With the problems of harnessing the great potential power of the Colorado river as the principal subject of discussion, the Pacific Division of the American Association for the Advancement of Science opened its sixth annual meeting here today.

The meeting is being held in conjunction with a summer session of the American Association, which is represented by scientists from all parts of the country.

In addition to the wide discussion concerning the Colorado river, conferences will be held by members of affiliated scientific societies which will cover the entire field of scientific thought and research.

Dr. Barton Warren Everman, President of the Pacific Division, will preside at the general sessions of the convention, and will deliver the presidential address, the subject of which is "Conservation and Proper Utilization of Our Natural Resources."

Among the Colorado river subjects to be discussed at the symposium are:

Description and Physiography of the Colorado River basin, by Dr. Frederick J. Pack, Deseret professor of the department of geology at the University of Utah.

Geology of the Colorado River Basin, with Reference to Engineering Problems, by Prof. Bailey Willis, head of the geology department of Stanford University.

Vegetation of the Colorado River Drainage Basin, by Dr. D. T. MacDougal, director of the Carnegie Deseret Laboratory at Tucson, Ariz.

Conservation of the Waters of the Colorado River from the Standpoint of the Reclamation Service, by Frank E. Weymouth, chief engineer of the United States Reclamation Service at Denver, Colo.

The Interstate and International Aspects of the Colorado River Problem, by Dr. C. E. Grunsky, vice-president of the Pacific Division of the American Association for the Advancement of Science, of San Francisco.

As showing a similar problem, Prof. E. V. Gantier, of the Faculty of Letters, University Algiers, exchange professor at Harvard University, will discuss "The Algerian Sahara."

Dr. James Harvey Robinson, director of the New School for Social Research of New York City, will discuss evolution and its bearings upon human relations under the heading of "Our Growing Knowledge of Man's Place in the World."

Prof. H. P. Loty, of Leiden, Holland, a well-known writer on evolution, will attend the Salt Lake meeting and will lecture on "The Origin of the Species by Hybridization."

Among the scientific societies scheduled to hold meetings are: The American Physical Society, the American Meteorological Society, the Cooper Ornithological Club, the Ecological Society of America, the Pacific Coast Entomological Society, the Pacific Slope Branch of the American Association of Economic Entomologists, Plant Physiologists, the Society of American Foresters, the Seismological Society of America, the Utah Academy of Sciences, and the Western Society of Naturalists.

Among the noted scientists who will be present are: Dr. David Starr Jordan, Dr. William E. Ritter, L. O. Howard, Dr. John C. Merriam, C. A. Kofoid, Francis B. Sumner, Prof. E. C. Franklin, E. G. Martin and C. L. Marlott.

ARE IN LOVE WITH ALABAMA

Mr. and Mrs. E. L. Runyan, Former Hoosiers, Visiting Here

Mr. and Mrs. E. L. Runyan of Foley, Alabama, former Hoosiers, are visiting at the home of Mr. and Mrs. E. C. McMahon in West 2nd street, Mr. Runyan being a brother of Mrs. McMahon.

Mr. and Mrs. Runyan formerly lived near Summitville, in the northern part of Madison county. They moved to Alabama seven years ago and like the state so well, they would never return to Indiana to live, Mr. Runyan says. He has large orange and pecan orchards which are now bearing. Watermelons and grapefruit are also grown in large quantities, according to Mr. Runyan. The lowest temperature last winter was seventeen degrees above zero, he says, and this summer the mercury has been above one hundred degrees, but the heat is no hindrance due to a strong salt breeze.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

Note: Write for valuable, free illustrated book, "Motherhood and the Baby," containing important information, which every expectant mother should have, and all about "Mother's Friend," to Bradford Regulator Company, B.A.-3, Atlanta, Ga. "Mother's Friend" is sold by druggists everywhere.

LOYD GEORGE REGIME LOSES

Government is Defeated in Grand Committee of House of Commons in Vote on Bill

GENERAL ELECTION TALK

Defeat in House of Lords Wednesday Gives Opposition Something Definite to Work On.

By ED L. KEEN

London, June 22—The Lloyd George government was defeated in the grand committee of the house of commons today. The committee adopted an amendment to the National Health Insurance bill which the government had opposed.

The house adjourned immediately following announcement of this defeat, to permit the government to consider its position.

Immediately the lobbies of parliament seethed with talk of a general election.

Defeat of the government in the house of lords yesterday, when the Palestine mandate policy was rejected, 60 to 20, despite the Earl of Balfour's maiden speech, followed so closely by today's defeat, gave opponents of the government something definite upon which to base their demands for resignation.

The government recently was defeated in the house on a minor question relating to teachers salaries, but the ministry ignored the matter because whips had not been put on and only a small house was present.

Lloyd George's political enemies, embittered by successes scored by the premier in typical Lloyd George fashion since his return from Genoa, feel that now is the time they can most embarrass him by forcing the issue. With British delegates at the Hague carrying on the premier's Genoa policy, resignation of the ministry probably would mean collapse of the entire project of reconciliation with Russia. Lloyd George's one big international project would be swept away.

The "die hards" who hate the premier because of his stand on Ireland, and the labor members of parliament who are bitter because 900,000 workers in engineering trades were forced to capitulate and accept employers' terms following a lock out, will be united against Lloyd George when the present issue upon which the government met defeat in committee comes before the house.

The government has two courses open. To pocket its pride, introduce the bill providing for national health insurance with the amendment forced upon it and say nothing, or revamp the whole measure, submit it to the house of commons and demand a vote of confidence on the issue.

The latter course is fraught with considerable danger, although a combination of the conservative majority of "dead" voters in the house and Lloyd George's persuasive eloquence would undoubtedly guarantee him a small majority.

Political observers say that unless Lloyd George himself is ready to resign he will be able to weather the storm and continue in office until after the Hague conference.

A general election is due in the fall anyway, and it is merely a question now of what Lloyd George considers the best time to hold one.

"LOVE NESTS" ARE SOUGHT

Further Investigation Made Into Killing of Clarence Peters

(By United Press)

New York, June 22.—Search for two additional "love nests" where Walter S. Ward is suspected of having entertained a constant stream of fair women visitors during the absence of his wife and children at Palm Beach, was today the feature of developments in the case that culminated in the killing of Clarence Peters.

Ward's lawyers at White Plains sought his release on bail but interest centered in additional disclosures of alleged indiscretions by the millionaire banker's son here last summer.

ORAL ARGUMENTS HEARD

Indianapolis June 22—The supreme court today was considering oral arguments of attorneys in the appeal of four Culver bank robbers convicted of murdering Jacob Saine, a merchant, in the robbery. Attorneys for the convicted men pleaded on the theory that Saine was shot immediately after the robbery, was committed by a fifth man in the gang, who escaped.

DAVIS' ARGUMENTS WERE FALSE, CHARGE

Dr. Straton States That The Bible Is The Only Text Book That Stands The Test of Time

ANSWERS HARVARD ADDRESS

New York, June 22 — "God help the human race if the sort of science that we saw exemplified and glorified in the world war is to be looked up to as producing the modern ideals of the coming generation," said Dr. John R. Straton, pastor of Calvary Baptist church today, with regard to the assertion of William Morris Davis at Harvard commencement, that morals really belong more to the field of science than to the field of religion.

"Professor Davis' whole argument seems to have been founded upon a series of false assumptions. For one thing, he assumes that science has brought great benefit to the world but says nothing about the far greater benefit that religion has brought.

"Another argument of professor Davis is that religion, as he puts it, has trespassed upon the proper field of science because religious leaders have preferred to hold on to God's revelation rather than to bow to human speculation. I will only say that, whereas there is scarcely a scientific text book that is now ten years old, that is not out of date, the Bible, after all is the only one that stands the test of time."

TWENTY-FOUR DEAD IN RENEWAL OF ILLINOIS MINERS WAR TODAY

Reported to be Strike Breakers Who
Were Captured by Striking
Union Miners

BODIES HANG FROM TREES

Others Showed Evidence of Being
Severely Beaten Before They
Were Fired Upon

MINE WORKERS IN BARRICADE

Forced by Superior Numbers to Dis-
arm and 14 of Their Number Are
Shot in Cold Blood.

(By United Press)

Marion, Ill., June 22.—Twenty-four men were slain today in the miners uprising raging in Williamson county. Many of the bodies were hanging from trees and others showed evidence of severe beating before being fired upon.

Martial law seems imminent and the state authorities were getting ready late this afternoon to disband troops sent on haste to the murdering area on word sent to the governor's office.

Those slain were reported to have been strike breakers who were captured by the miners who marched upon the coal properties near here and through superior numbers, forced the strike breakers to relinquish their positions.

Among the dead were C. K. McDowell, superintendent of the Southern Illinois Coal Company, according to witnesses. Forty-seven of the workers harracked in the mines, surrendered, according to the story told by those returning from the scene. They surrendered their arms and were believed carried toward Herrin when shooting began.

Fourteen powerless to defend themselves were shot to death, it was said. Seven were seriously wounded. The remainder escaped and were said to be fleeing to all parts of the section.

The attackers at once disbursed. At least five hundred automobiles were reported this afternoon returning to various mining communities in the county.

Most of the bodies were taken to Herrin, according to witnesses.

All was quiet at Marion this afternoon. In the skirmishes of the miners during the morning steam shovel and buildings were blown up and spur tracks were wiped out.

With cessation of hostilities in the mine war district at the strip mine near here today, a careful investigation revealed two dead, two probably fatally wounded, and a score or more slightly injured.

The streets of Marion, scene of wild excitement last night when hundreds of strike sympathizers congregated to advance on employees of the mine owned by the southern Illinois coal company, were deserted today.

Telephone reports from surrounding mining communities declared conditions were nearly normal. A report that a heavy explosion near the mine occurred this morning had not been confirmed.

Joe Pitchovie, Herrin and Jordan Henderson, also of Herrin, are the two known dead. Their bodies are held at the Herrin morgue. Sidney Morrison, Chicago, lies seriously wounded in a hospital at Carbondale. Another miner, whose death is expected momentarily, is in a hospital here.

Colonel Sam Hunter, representing the adjutant general's office, expressed the belief that state troops would not be needed to handle the situation.

Attempted dynamiting of a small dam near the strip mine last night gave rise to the report that a score of miners had been killed.

Darkness halted the battle which raged throughout the late afternoon and early night in which thousands of shots were exchanged.

Three of the men reported dead were said to have been shot in the battle at the strip mine owned by the southern Illinois Coal Company six miles west of Marion. Three of the others are said to have been fired upon while riding on a truck

MASS ACTION TO BE STOPPED IN INDIANA

Miners Decide in Mass Meeting at
Terre Haute to Resort to
Individual Action

COMMITTEE TO MEET LEWIS

(By United Press)

Terre Haute, Ind., June 22.—Mass action including coal miners in Terre Haute which is pending to end the miners strike, is to be discontinued.

Individual action will follow throughout the strike. This was decided at a meeting of the miners held late Wednesday after hearing recommendations from President Hessler of district eleven, United Mine Workers.

Hessler said that mass action was too expensive and was also unsuccessful. The trips to the mines cost between \$100 and \$150 per trip for gasoline and oil.

Speakers on the floor urged individual action in putting a stop to the hauling of coal through the city streets. No action, however, will be taken before Sunday when another mass meeting will be held.

The committee appointed to meet President Lewis to talk over the Kentucky situation will meet him at five o'clock Friday evening at Cincinnati. They will demand that production in Kentucky cease immediately; that the contract between operators and miners of district 23 be repudiated and those responsible for its making be punished according to the laws of the United Mine Workers.

between Cartersville and May, Illinois near the mine.

Six others known to have been in company with strikebreakers, leaped into the Big Muddy river following a battle with a band of ambushed men, supposed to have been striking miners. They were unaccounted for early today.

Heavy firing and reports of loud explosions were heard at intervals during the night.

The number of injured who are being cared for in Marion, Herrin and other mining towns in the vicinity, may reach 100, it was estimated today.

The battle, which began late Wednesday afternoon, was precipitated by receipt of a message from John L. Lewis, president of the United Mine Workers, declaring that workmen, who are members of the Shovelmen's Union, were common strike breakers, and had been outlawed by the American Federation of Labor.

Three workers bound for the mines late yesterday afternoon were fired upon near Carbondale and one probably fatally injured. Others in the party escaped through a fusillade of shots by swimming a creek. One man who escaped injury reported the attacking band numbered more than fifty.

Sympathizers of the striking miners, who have been idle more than three months, were reported to have invaded Hardware stores in the vicinity of the mine late in the afternoon, secured arms and ammunition and advanced on the strip mine.

Reports from the mine early today were only two were killed and that the employees of the mine would be withdrawn during the day. The situation was quiet this morning.

Springfield, Ill., June 22.—Three companies of the 130th infantry were under orders today to be prepared to move into the Williamson county mine field trouble zone at a moment's notice, Adjutant General Carlos Black's office indicated today.

While the national guard headquarters refused to make public the specific orders issued to the company commanders, it was indicated several thousand fully armed and provisioned men could reach the riot zone in eight hours.

The home stations of the companies are at Cairo, Mt. Vernon and Salem.

ELLIS IS NOW A CAPTAIN

Local Salvation Army Leader Re-
turns From Training School

Earl Ellis, the leader of the Salvation Army corps here for the past several months, has returned from a several weeks course in the Army training school at Chicago, and is now a captain. He was formerly an envoy before taking the special training which fitted him for the promotion.

Capt. Ellis announced today that special meetings would begin at the Army church tonight and that Capt. Millman, D. D., of Newcastle, would speak.

WINS A BANNER FOR EFFICIENCY

Rushville Young Peoples' Society
Successful in Contest at Indiana
Presbytery Meeting

SPRINGHILL TAKES SECOND

New Officers Are Elected and Caledonia Selected For 1923 Convention at Closing Sessions

The closing sessions for the Indiana Presbytery of young peoples societies, were held Wednesday at the First United Presbyterian church in this city, and the Rushville society was awarded the Efficiency banner, with Springhill second. The banner was awarded along the line of 10 points and Rushville proved most efficient, carrying 8 points with Springhill 7.

The business sessions were held in the afternoon which included the election of officers for the next year, and Byron-Wainwright of this city was elected for the fourth consecutive year as treasurer.

The following officers were elected by the delegates:

President, Miss Mary Moore, Springhill; first vice-president, Earl Watt, Bloomington; second vice-president, Miss Helen Culbertson, Woodruff Ave., Indianapolis; recording secretary, Miss Goldie Jessup, Rushville; treasurer, Byron Wainwright, Rushville; press secretary, Miss Rachael Marrow, Princeton; Corresponding secretary, the Rev. E. G. McKibben, Rushville.

Dr. T. H. McMichael of Monmouth, Ill., gave an interesting address last evening on the subject, "Builders of the Past." He reviewed interesting historical characters from the past to the present day. He mentioned interesting historical places which he had seen on his journey a few years ago through England, Scotland and Holland, taking his hearers to the home of Sir Walter Scott and John Knox and also to Stratford-on-Avon where Shakespeare lived and wrote. In conclusion he set forth the fact that all great writers and speakers kept a copy of "the old book"—the Bible, on their study tables, from which they gleaned historical and scriptural facts, together with the excellent literary values found therein.

The next Presbyterian convention will be held at Caledonia, in the southern part of the state, sometime during June, 1923.

The closing feature of the convention was the pageant, "Cindy's Chance," given by the Rushville society under the direction of Mrs. E. G. McKibben. The pageant was given in four scenes and was well received.

LEGION MEETS TONIGHT

Rush post No. 150 of the American Legion will meet tonight at 8 o'clock in the post's club rooms in West Second street.

"SLEEPER" ARRESTED TODAY

Chief of Police O'Neil placed a man in jail at noon today, who was intoxicated and will be arraigned probably in the morning before Justice Stech. The man, who was said to be too far gone to reveal his name, was asleep in a buggy passing down Main street, when the police officer jumped in and headed the horse toward the jail, and where the man was carried inside and put to bed.

JURY IS HEARING A REPLEVIN SUIT

Court Occupied With Case of Peoples
State Bank of Indianapolis Vs.
Hall Brothers

\$1,000 JUDGMENT IS SOUGHT

Notes Given For Truck Involved in
the Trial—Blanch Alzman
Denied Divorce

The jury in the circuit court was occupied again today with a case, the matter before them being a suit of the Peoples State Bank of Indianapolis against Hall Brothers of this county, the complaint being to replevin an automobile truck and to collect on notes, demanding \$1,000 judgment.

The case was expected to be completed today. The matter involved a sale of an automobile truck to Herbert H. Hall and Russell Hall, in which several notes were given in payment for the truck, and which are alleged to be past due. The defense maintains that the truck was misrepresented and was a bad purchase.

Judge Sparks Wednesday refused to grant Mrs. Blanche Alzman a divorce from Thomas O. Alzman, after having had the evidence under consideration since May 27.

The jury which heard the case today was composed of Joel Carson, L. B. Miller, Alvan Moor, Will Inlow, Ollie Offutt, Job Stevens, William A. Caldwell, Jake Ricketts, Ben Reeve, James Williams, Morrison Beaver and Al Linville.

Two new suits were filed today in the circuit court, one being a suit for divorce filed by William H. Campbell, 828 North Arthur street, against Martha Campbell, the complaint alleging that his wife used profane language, was unsanitary and failed to provide his meals on time.

The complaint alleges that they were married June 5, 1916 and separated June 21, of this year, and that three children were born to them, and he asks that the court make some satisfactory disposition of their custody.

John D. Hiner is plaintiff in a suit filed against Leroy (Roy) Carr, the complaint being on an account and to foreclose a garage lien, demanding \$35 judgment. The complaint involves the sale of an automobile tire, which is alleged to have never been paid, and that a lien had been entered in the recorder's office against the car.

WALDRON MAN IS ELECTED PRESIDENT

The Rev. R. O. Pearson Again Chosen
Head of Epworth Leagues of
Connersville District

18 LOCAL MEMBERS ATTEND

The annual convention of the Epworth League societies of the Connersville district, Methodist churches, ended Wednesday at Liberty. The St. Paul's M. E. church of this city was represented by 18 members of the local society. The Rev. R. O. Pearson of Waldron was re-elected president of the district organization, and the next annual convention will be held at the West Street church, Shelbyville.

The outstanding features of the convention this year was the large attendance, as 300 visitors registered, and the two addresses delivered by Bishop Wilbur Thirkield of Mexico, who is in charge of the activities for the League in that country.

The meeting was pronounced as one of the best district conventions ever held in this district. Dr. J. M. Walker, superintendent of the district, of this city, attended, as did the Rev. Clyde S. Black, the Rushville minister. The convention opened Monday, noon and closed Wednesday noon.

DRINKS HALF PINT POISON

Richmond, Ind., June 22.—Roy Davis, 27, an employee at C. and O. shops, committed suicide last night by drinking a half pint of poison.

CORPORATIONS ARE CONSIDERED BY BOARD

Tax Reviewers Will Notify Each In-
corporated Business of Amount
of Assessment

OTHER CONCERNS REVIEWED

The county board of review this afternoon began the review of assessments of Rush county corporations. After the work is completed, each incorporated business will receive a notice notifying them of their assessment and whether or not it was raised. Representatives of the concerns may appear before the board any time before the board adjourns, July 12, if they have any complaints to make.

The board this morning completed reviewing the assessments of non-incorporated businesses in the county. Concerns of this character are required to file the same kind of a supplemental sheet as incorporated firms, in addition to their regular personal property assessment sheet. These are compared by the board and frequently where the statement shows more than the personal property assessment, the difference is added to their total assessed valuations.

The board has also finished passing on the mortgage exemptions. Each property owner is entitled to half of the sum for which their property is mortgaged up to a maximum of \$1,000, and in some cases taxpayers claim more than they are entitled to. The board has also passed on soldiers' and soldiers' widows' mortgage exemptions.

ONE HUNDRED BOYS IN SUMMER WORK

Youngsters From Fourth to Ninth
Grades Enjoy Swimming Hikes,
Drills and Games

J. H. S. GIRLS FORM A CLASS

Boys Respond to Appeal From City
Park Board to Help Clean
Park and Mow Grass

Approximately one hundred boys, in addition to a number of junior high school girls, are taking the summer work being given under the direction of A. F. Cotton, physical director in the schools, who has been engaged for the first two months of the summer vacation by the Rushville school board.

Thirty boys of the fourth and fifth grades compose one class, thirty-five boys of the sixth and seventh grades another class and thirty-five of the boys in the eighth and ninth grades compose the third class. The junior high school girls compose the fourth class.

They all have regular periods during the week in which they engage in hikes, swimming, baseball, basketball, football, setting-up exercises, flag signal practice, bird study and insect study.

The youngsters have taken to the summer recreation work with much vigor and the way they have received the innovation indicates that the school board make no mistake in initiating this course.

Plans are already under way to close the course with a camp for boys, details of which will be announced within the next few days.

Boys of the fourth and fifth grades get in three or four periods during the week, at which they are taught knot-tying, bat ball, swimming, setting-up exercises, drills and enjoy hikes to the country.

Boys of the sixth and seventh grades have practically this same program, with indoor baseball, basketball and insect study added. The program for the eighth and ninth grade boys includes in addition to this, football and flag signal practice. The junior high school girls engage in practically all of the sports which the boys enjoy, and in addition study birds.

The boys in the classes willingly responded to an appeal from Walter F. Easley, a member of the city board, to help clean the city.

MEMBER OF PARLIAMENT ASSASSINATED

Field Marshal Sir Henry Wilson
Killed in Front of His London
Residence Today

ASSASSINS ARE CAPTURED

Two Members of Irish Republican
Army Put up Running Fight
After the Killing

ONE POLICEMAN IS SHOT

Murder Believed Part of Final Blow
to Assail Opponents of Irish
Republican Party

(By United Press)

London, June 22.—Two soldiers of the Irish republican army today put to death Field Marshal Sir Henry Wilson in front of his residence at Eaton Square here.

The assassins were captured after they had put up a running fight and shot three policemen and one civilian. One attempted suicide following arrest.

The murder of Wilson, a member of parliament from Ulster, was, it is believed, part of a final blow to assail the opponents of the Irish republican party.

Guards were redoubled at White Hall and at Lloyd George's residence in Downing street. One of the policemen wounded in the running gun fight died later in the hospital.

Police guarded the Eaton Square district this afternoon in the hope of finding four men believed to have been accomplices of O'Brien and O'Connell.

Owing to recent political developments, Wilson was leader of the Ulster cause in England. He was also head of the Ulster defense under Sir James Craig.

An official of the American relief administration assisted in the capture of the murderers.

Describing the attack to the United Press, this official said:

"Sir Henry was alighting from an automobile in front of his home in Eaton Square. The assassins were on the side walk, waiting for him. They seized him and shot him dead."

"The murderers then walked into the center of the street and began to make their getaway. They waved revolvers and a policeman who attempted to halt them was shot through the stomach."

"The assassins proceeded about four or five blocks, shooting at intervals. They wounded a civilian in their flight."

"An unarmed policeman ahead of the murderers awaited their approach at a street corner. As they came to the corner, he leaped out and struck one of them on the head with his night stick, felling the man. The three or four men around the street grabbed the other man and pulled him down."

Sir Henry Wilson was 58 years old. He entered the service in 1884 and won many decorations in his rise to field marshal. He was created a baronet in 1919.

In 1914 when the war broke out Wilson was assistant chief of the general staff under Lord French. He served as liaison officer with the French and later represented Great Britain at Versailles when the supreme military council was established in 1917. He was chief of the imperial general staff and a member of Lloyd George's cabinet from 1918 until last year.

The earl of Cavan is now chief of the imperial general staff.

MAYOR'S WIDOW ACCUSED

Richmond, Ind., June 22.—Mrs. Viola Zimmerman, widow of Dr. W. W. Zimmerman, former mayor of this city, was indicted by the grand jury here yesterday on charges of assault and battery and assault and battery with intent to kill. She was released on \$1500 bonds. Mrs. Zimmerman was arrested on complaints made by Mr. and Mrs. Skeles W. Bricker.

Angola, Ind., June 22 — Amos Perry, 60, years old, a prominent citizen of Montpelier, Indiana, committed suicide yesterday at Lake George. Ill health is said to have caused him to take his life.

NEW METHODS IN TEACHING MUTES

Sign Language is Fast Disappearing in State Institutions For the Deaf and Dumb

ARE TAUGHT HOW TO SPEAK

Hearing is Also Being Improved on by Difficult Manner in 15 Classes Out of 25 State Classes

Indianapolis, Ind., June 22—Deaf and dumb persons in Indiana are able to use their voices in talking in some cases, as well as a person whose hearing is not defective.

Some who are "stone deaf" and who have not been able to hear since they were born, are able to deceive persons into thinking they can hear by talking fluently.

The method of teaching sign language in Indiana is passing, according to O. M. Pittenger, superintendent of the State School for the Deaf.

Of the twenty-five classes at the school, methods of using the voice are taught in fifteen of them, Pittenger said.

"This is a very difficult problem," he said, "for the child has no idea how a sound is made, or even there is such a thing as speech."

"A child of seven—the age that most of them are taken into the school—must learn to talk just as a baby learns, but a baby can hear the different sounds made by the vocal chords and the different modulations and expressions made by the mouth and lips. The deaf child has a decided advantage. The instructor makes a sound and places the pupil's hand on her throat so that he may 'feel' the pitch of the sound. Then the child attempts to make a sound with his hand on his own throat so that he may 'feel' the pitch of the sound. Then the child attempts to make a sound with his hand on his own throat for comparison. This is repeated until the vibrations in the instructor's throat feel the same as his.

"All of this is repeated through a great variety of sounds. Instruction is given in movements of the mouth to get the formation of the different vowels and consonants and then in the information of words. This tedious practice is performed for hours by a child before a mirror trying to imitate the teacher. These are just a few things that the deaf person must do to get from under his handicap."

Scientific Ghost Hunter Will Snap Picture Of A Cat's Spirit

Dr. Carrington. Noted Investigator of Ghostly Beings, Will Conduct Experiment to Prove His Belief That Spirits Exist, Using a Cat For His Subject. Devices are all Prepared For His Extracting Principles, and Researchers Will Watch Developments With Interest.

By JACK DARROCK (Copyright 1922 by U. P.)

New York, June 22.—Convinced that ethereal bodies exist, Dr. H. Carrington, noted investigator of ghostly manifestations, intends to photograph the astral body of a cat he announced today.

This experiment will be conducted in the laboratory of the American psychical institution where Dr. Carrington works among many strange machines and ingenious devices designed to help him probe into the unknown and discover whether spirits exist there.

Dr. Carrington might be called a "scientific ghost hunter." He is investigating alleged ghost phenomena with an open mind, but with purely scientific tools. According to present plans, the cat will be placed in a glass box, just large enough to hold it. This box will be placed in another glass box about five inches larger. Dr. Carrington and his assistants will attempt to remove the astral body from the physical body of the cat by means of anaesthesia. The astral body will then pass through the first box as far as the second box, which will contain an atmosphere of water vapor. (It is

the theory of the researchers that when the cord which connects the astral body with the physical is broken, death is the result).

The air between the two glass boxes will be reduced. As the pressure of air is reduced it is thought the astral body will give off radiation and, if so ionization will take place; that is little electrical parts in the atmosphere will condense on the surface of the astral body like dew drops gather on grass.

This will outline the astral body, according to Dr. Carrington, and will permit the taking of a photograph. Dr. Carrington believes that the mysterious "noises" declared by many to be spooks and accepted by many scientists as spirits and ghosts, are phenomena of the mind and body, as yet undiscovered.

By means of various instruments, such as the kymograph, which records the pulse and respiration; the sphenometer, which registers the radiation of the body, the volometer for testing the pressure of the human mind, and the galvanometer, used to register delicate electric changes of the body, Dr. Carrington hopes to determine the credibility of the mysterious phenomena.

The kymograph, Dr. Carrington said, makes it possible to expose fraud in connection with spurious psychic manifestations. This instrument is placed under the arms of the medium. It keeps constant record of the pulse and respiration during the entire experiment. If phenomena occurs not due to the exertion of muscular effort no violent changes are recorded. But, if

the medium resorts to fraudulent methods violent changes are recorded and trickery is thereby detected.

OLD PAPERS CURIOSITIES

Copies Containing Account of Washington's Death Displayed

Copies of the Ulster County Gazette, published Saturday, January 4, 1800, at Kingston, N. Y., containing an account of the death of President George Washington, were among the interesting relics on display at the Rush county Centennial celebration last week. One copy is the property of Mrs. W. D. Root, corner of Perkins and Fifth streets, and the other belongs to Lowell Collyer, photographer. One of the papers was on display in Abernethy Brothers jewelry store window and the other in McIntyre's shoe store window.

These are believed to be the oldest newspapers in existence in Rush county. These copies were Number 88, Volume 2.

ONE HUNDRED BOYS IN SUMMER WORK

Continued from Page One park board, to assist in cleaning up the park. They worked Tuesday afternoon mowing the grass and doing other chores to make the park look more respectable. This morning all of the boys helped Mr. Easley prepare a baseball diamond in the northeast corner of the park for their games.

The park board also has in mind the erection of a well house over the drinking fountain at the park, piping water to the tennis courts so that a drinking fountain may be installed there, repairing the wading pool for the use of children and the

addition of more playground equipment and the repair of that now being used in the park.

Chinese Poetry vs. Freud.

Chinese literature could exercise a beneficent influence on our own. It proves for example—and this contrary to the doctrine of our romantic Freudians—that a great poetry can exist by other virtue than its sexual interest. It offers a resolution of our too-favorite antinome between romanticism and classicism, for it is a literature both human and humanistic; a literature that is classical without being mummified. American poetry could learn this from the Chinese.—Malcolm Cowley in the Dial.

BE CHARITABLE—Brethren, if a man be overtaken in a fault, ye which are spiritual, restore such a one in the spirit of meekness: considering thyself, lest thou also be tempted.—Gal. 6:1.

Women and The Tariff

Since women have the right of franchise and are taking a larger interest in public affairs, an effort is being made to deceive them about the trade policy of the United States. The free traders are resorting to the old trick of asserting that a protective tariff will force them to pay an excessive price for the goods they use. When the pocketbook is in question, the women are very naturally interested.

The plea of the free trader has always been to the consumer, and the devil take the hindmost—the producer. But it is a very safe guess that the average American woman has enough discernment to know that the first essential is pro-

perous production, for without it there would be no satisfactory consumption. The wife of a producer is interested in her husband's earning power and she is not very likely to vote for a policy which will take away her husband's earning power in order that she may buy cheaper commodities made in Europe, Asia, South America, Africa or Australia.

The free trade policy is "buy where you can buy the cheapest." That means in actual practice, that we should buy our wool in Australia or South Africa, our silk goods in the Orient, our hides in Mexico, our beef in Argentina, cotton and wool manufactures in England, cutlery, optical goods, and various other commodities in Germany, glassware in Belgium, lemons in Italy, and so on down the list. If we are to maintain our American standard of living, the American producer cannot successfully compete with the prices foreign producers are able to quote, and the American producer, under a free trade tariff would, in normal times, sell only what the foreigner could not supply.

"If we are to buy abroad, as the free traders would have us to do, in the alleged interest of the consumer, then the American producer must either close down entirely or greatly curtail his production. Every producer who diminishes his operation reduces the number of his employees and the market for American goods is thus further curtailed.

"It is an economic fact often repeated but not fully appreciated, that a dollar spent for productive purposes in the United States changes hands ten times in a year. The wage earner spends the dollar for food, the merchant pays it over to the wholesaler, the wholesaler hands it on to the manufacturer or packer, the manufacturer uses it to buy from the farmer, and the farmer buys clothing, and so on. If that dollar be sent to Europe or Asia, it circulates there, doing the service it should do in America.

dible but it is true that this, the greatest producing nation in the world, was buying more than it was selling, and for the simple reason that a free trade tariff law made it easy to import foreign goods. As a result, American mills were closed and there were millions of men out of employment until the war in Europe shut off imports and created an unprecedented foreign demand for American goods.

In the fact of these records and the indisputable fact that we must have prosperous producers before we have consumers, it is incredible that any considerable number of women will be misled into voting for the privilege of buying goods in foreign lands at prices with which American industry cannot compete.

The Hodge-Podge

By a Paragrapher With a Soul

We were always taught that it costs nothing to say please, but that little word in telegrams cost Americans one million dollars last year.

The word is being passed along the line that the miners' strike is a failure, but where was there ever a strike that was not a failure?

Secretary of War Weeks has evidently forgotten that he is just the war secretary and not the man who sets the moral standards for the country.

It's a little late to be fighting the civil war over again, but the United Confederate Veterans have decided that Lincoln was responsible for forcing the conflict on the south.

A hot temper is an expensive luxury, as Babe Ruth has discovered.

The American Federation of Labor has declared for a congressional veto of supreme court decisions, indicating that the organization is not entitled to use the word American.

IN THE WORLD OF SPORT

RECORD SWIMMER WILL TAKE PART

John Weismuller, Man Who Broke
Four Swimming Records in One
Day, Will be at Broad Ripple

AT THE SWIMMING CARNIVAL

Committee in Charge of Events Are
up Against it in Finding Swimmers
Who Can Compete With Him

Indianapolis, Ind., June 22—With the series of recent record breaking performances by Johnny Weismuller, of the Illinois Athletic club, the managers of the swimming carnival to be held in the Broad Ripple pool at Indianapolis, August 10, 11, 12, are confronted with a real problem. The problem is to get competition for Weismuller. There are plenty of good swimmers among the athletes of America, but few good enough to push Weismuller.

It was about one week ago that Weismuller smashed four world's records in one day. He covered the 400 yard distance in 4 minutes and 40 2-5 seconds, which breaks the record by 14 seconds.

He reduced the time for the 400 meters from 5 minutes, 14 2-5 seconds to 5 minutes, 8 1-5 seconds. Weismuller set a new mark in the 500 yard swim, doing the distance in 5 minutes, 10 seconds. In the 500 meter swim, he reduced the time from 5 minutes, 56 3-5 seconds to 5 minutes, 52 seconds.

Paul Jordan, director of the big swimming carnival, that is being staged under the auspices of the Indianapolis Athletic club with the sanction of the Indiana Amateur Athletic union, last year brought together in a 200 yard national championship Norman Ross and Lady Langer, two world's record holders. Weismuller was entered in the same race at the Broad Ripple pool. He proved the dark horse and won the race.

This Time Last Year

After winning six successive games, Red Faber, Chicago, was stopped by Cleveland.

Tex Richard announced that the capacity of the Jersey City arena built for the Dempsey-carpentier fight had been increased to 91,613.

Mrs. Molla Mallory and Miss Elizabeth Ryan advanced to the fourth round of the British national tennis championships at Wimbledon. Harvard beat Yale, 16 to 4.

SPORT CHATTER

Ollie Pickering, a youngster of fifty-three, is to manage a team in the Kitty league and perhaps take a turn in the outfield or pinch hit occasionally.

The Salt Lake club has released Bill Thompson, minor leaguer, who tried to pull a comeback after spending two or three years in industrial ball.

New Haven club purchased Frank Woodward, leading strike-out hurler of the Eastern league last year, from the Washington club of the American league.

The Atlanta club gets another bit of melichue from Commissioner Landis, who for some reason or other has refused to reinstate Erskine Mayer.

Alfred Nef, a cousin of Art Nef of the New York Giants, won't make his mark in baseball just yet. He has been released by the Terre Haute club after a brief trial.

HARD TO HURL SLOW BALL THAT IS GOOD

It takes ability to throw a slow ball. This delivery, generally thought a matter of easy accomplishment, is, extremely difficult. Fast ball pitchers have a hard time of it when they try to serve a slow ball. Curve ball pitchers are likewise troubled by the slow one.

The average pitcher fails on his slow ball because of the way he delivers it. He tries to disguise it and goes through various extra motions to make the batsman believe the fast ball or curve is about to be delivered. Smart batsmen have long since come to recognize the coming of a slow ball by the extra effort on part of the pitcher to disguise the delivery.

Still, a large number of pitchers maintain that a slow ball, whether recognized or not, is most important as it throws the batsman off his stride and makes him look for it.

RUTH'S GROUCH IS HURTING HIS HITTING

Home Run King Not Capacitated To
Carry Mental Burden And Keep
His Eye On Ball

ASSUMES ROLE OF A MARTYR

By HENRY L. FARRELL
(Associated Press Staff Writer)
New York, June 22 —Babe Ruth is getting the idea that he is down and that every one is taking a lusty pedal swing at him.

With his mind running on this track, the Bam is greasing the slides ahead of him because he is not incapacitated to carry a mental burden and keep his eye on the ball.

As long as he keeps one ear tuned to the stands he will always hear something that will sink under his hide and he can't take it.

New York is not bothering about the number of umpires that he can whip but is pondering over the question of whether he is "through."

He may never start hitting as long as he assumes the role of a martyr and casts about for sympathy. If he slumps in his home run hitting, he is through with major league baseball because that's all he can do.

Ruth is a high-strung, nervous, temperamental individual with a most sensitive disposition. He is entertaining a terrible grouch that will keep him just where he is if he doesn't come out of it.

BATTLE FOR OPEN CHAMPIONSHIP STARTS

Ted Ray And J. H. Taylor, Take
Lead Among Early Players
With Cards Of 73.

WALTER HAGEN IS FAVORITE

Sandwich, England, June 22 —Ted Ray and J. H. Taylor, two British players led the field at the close of the first eighteen holes in the British open golf championships. Ray and Taylor both went around in 73.

G. Faulkner was second with a 74 and seven players were tied for third place with a 75, including Jim Barnes, the American champion, and Audrey P. Boomer, who drove off first this morning.

Walter Hagen, American favorite for the title, was next with a 76. Jock Hutchinson, defending champion and Joe Kirkwood, the Australian, both turned in a 79.

Roger Wethered, regarded as one of the British hopes, turned in a card of 76, while Abe Mitchell came through with a 79.

George Dinean and "Alec" Herd both turned in scores of 76.

The Score Board

Yesterday's hero—Ed Rommel. Athletic pitcher, let the hard hitting Browns down with four hits, got two singles in four times up and won 5 to 0.

Scoring two runs in the 9th inning, the White Sox beat Washington, 5 to 4 and moved into a tie for fourth place with the Cleveland Indians.

Bunched hits off Olson and an error by Rigney broke the Tigers' winning streak of eight straight games and the Red Sox won, 9 to 8.

Two homers by Parkinson and one by Lee were all the tallies the Phils were able to get off Vic Aldridge and the Cubs won, 6 to 3 in a six inning game.

Three runs scored by a rally in the tenth inning gave Brooklyn a wild win over the Pirates, 15 to 14.

With Babe Ruth again on the side lines the Yanks got out of their slump with vengeance, rapped sixteen hits off two Cleveland pitchers and won, 7 to 3.

Yesterday's Home Run Hitters

Parkinson, Phils, 2, total 7.
Lee, Phils, 1, total 5.
Rowher, Pirates, 1, total 2.

Steals Another Nest.

There are a few birds that lay their eggs in the nests of other birds. The cuckoos of the Old World have this habit, while with us the cow-bird is the guilty one. In either case only a single egg is deposited.

AMUSEMENTS

Norma Talmadge At Princess

"Love's Redemption," with Norma Talmadge in the stellar role, which is at the Princess again today, was adapted for the screen by Anthony Paul Kelly, from Andrew Soule's novel, "On Principle," and was directed by Albert Parker. Harrison Ford and Montagu Love play the principal parts opposite Miss Talmadge. Others in the cast are Cooper Cliffe, Michael M. Barnes, E. Fernandez, Fraser Coulter, Ida Waterman, Marie Chambers and Charles Brown.

Many of the scenes in this picture were made in the West Indies where Miss Talmadge and her company spent nearly four weeks. The story is laid in a small tropical island, where the thermometer is about 130 degrees, and the population principally black, with the exception of the unlucky younger sons of English families who are condemned by their parents to work out their own salvation. But just as a pond lily grows in the darkest mud, so Jennie Dobson, nicknamed "Ginger" (the part played by Norma Talmadge), blossoms to lovely girlhood, despite the evil surrounding her on all sides. Her own fineness of character, high ideals, and noble purpose, eventually have their effect upon the man she loves. How she brings about his redemption, when he, too, is on the point of giving up the struggle, forms one of the most interesting plots in which Miss Talmadge has ever appeared.

At The Mystic On Friday

The ability of the typical young American to meet any emergency that may arise is demonstrated in "The Black Bag," Herbert Rawlinson's latest Universal production, which will be shown at the Mystic theatre, Friday. As Billy Kirkwood, an energetic young business man, Rawlinson goes to New York in quest of a mildly exciting vacation. Fate had selected him to play

an important part in a melodrama, leaving him to shape his own role. He plays his part well, not knowing what it's all about.

It all starts in a New York cafe where he meets an attractive young woman. She is trying to evade a man following her. Kirkwood meets her again at a fashionable beach resort and their interest in each other increases. Then Kirkwood is told she has stolen a diamond necklace. Is he unwittingly aiding a criminal instead of protecting a defenseless girl?

This puts Billy in an embarrassing predicament because he has fallen in love with her. He can't forget that even if she is a thief. He overpowers a burglar in her home and takes the necklace on his person. The working out of the story under the direction of Stuart Paton has been excellently done. The mystery is maintained until the very last. The film play is based upon the novel of the same name by Louis Joseph Vance.

Hupmobile

Its great economy, its very small repair costs, its day-after-day reliability, long life, and high re-sale value are the things that make the Hupmobile worth more.

SOCIETY

Edited By Miss Edna Krammes

Phone 1111

The Rebekahs will hold a picnic Sunday at Green's Camp, northeast of the city. All members of the Rebekah lodge are cordially invited.

The Industrial Club held an all day meeting at the home of Mrs. Cornelia Lyons Wednesday at her home in West First street. At the noon hour a pitch-in dinner was served and the day was spent in sewing.

The Band of Workers of the First Presbyterian church met Wednesday afternoon at the home of Mrs. Frank Reynolds, with Mrs. Minnie Hall and Mrs. Herman Jones, assisting hostesses. After the business session, a social program was rendered, and the society recessed for the summer, and will not be in session again until fall.

The Rushville Chapter of the D. A. R. held their annual flag day party at the beautiful country home of Mr. and Mrs. W. A. Alexander Wednesday evening, entertaining over ninety members and guests. A beautiful pitch-in supper was served. A number of out-of-guests were present, among whom were Mrs. George Nichols, of Springfield, Ohio; J. N. Perkins and grand daughter, Miss Harriet Perkins, of Rising Sun; Mrs. Rachel Jones of Chicago; Miss Eloise Owens, Mrs. Christina Mauzy of Indianapolis, and Mrs. Minnie Moffitt of Cincinnati, Ohio.

The Tri Kappa sorority held initiation and served a delicious breakfast Wednesday at noon at the home of Miss Fanny Stiers, living south of the city. The Misses Helen Bell, Helen Gray and Martha Fanning were initiated into the sorority. At eleven o'clock a delicious breakfast was served on small tables on the large porch. They were gaily decorated with summer flowers and the breakfast was served in three courses. Mrs. Neff Ashworth of Connersville was the only out-of-town guest present for the initiation.

Miss Millie Draper, daughter of Mr. and Mrs. J. O. Draper, and Ralph Martin, son of Mrs. Carrie Martin, both residents of this county were quietly married June 14 at Indianapolis, relatives here learned today. From there they went to Manitou, Colorado, where they will make their future home. The bride is well known in this city and county, having taught in the county schools for the past few years. Mr. Martin is a graduate of the local high school and has been engaged in farming. He is also well known as a basketball player. Mr. and Mrs. Martin will teach school this fall in the Manitou schools.

The last meeting of the year of the Delphian Society was held Wednesday afternoon in the Elks club room in West Second street. Mrs. Fred Arbuckle, president of the society, presided at the meeting and gave a talk on "The Teutons and Charlemagne." Other talks were as follows: "The Early Church," Mrs. Will Amos; "The Monks as a Civilization," Mrs. Horatio Havens; "The Feudal System," Mrs. Louis Lambert; "The Crusade," Mrs. R. E. Mansfield; "Schools and Education," Mrs. Theodore Abercrombie. Open discussion followed these talks on "Institutions of the Middle Ages." Following the program Mrs. R. E. Mansfield acted as hostess to the remainder of the members and served delicious refreshments. The next meeting will not be held until the second Friday in September.

Miss Lois Thorne, daughter of Dr. and Mrs. R. P. Thorne of Greensburg, and Dr. Prosser Clark, son of Mr. and Mrs. James Clark of Clarksburg, were united in marriage Sunday afternoon at 2:30 o'clock at the Roberts Park Methodist church parlors in Indianapolis. The ring ceremony was performed by the pastor, the Rev. Mr. Campbell. The bride wore a traveling suit of dark blue with hat to match and carried a lovely bouquet of bride's roses. Her attendant was Miss Ruth Carmichael and the bridegroom's attendant was Forest Thorne of Indianapolis. The wedding party consisted of Miss Ruth Carmichael of Bloomington, Forest G. Thorne and Mr. and Mrs. Otis Carmichael of Indianapolis, Dr. and Mrs. Thorne of Greensburg, the Misses Harriet Sweet and Naomi Gum of Martinsville, Robert Lowe, John McCoy and James Clark of Clarksburg. Dr. and Mrs. Clark left for a wedding trip to Chicago, Portland, Oregon and California. They will return home some time in July.

WOMEN MISSIONARIES SENT INTO MOUNTAINS

Foreigners Roped With Chinese in Kiaufu, According to Reports on Boxer Rebellion

MORE THAN 10,000 MURDERED

(By United Press)

Shanghai, June 22.—Foreign women missionaries have been roped with Chinese, two by two, and driven into the mountains, according to reports from Kiaufu giving details of the most horrible massacres since the Boxer rebellion. Soldiers with whips lashed the foreign women to hurry them on the march into captivity.

More than 10,000 Chinese and many foreigners are reported to have been murdered in widespread slaughter by mutinous troops in the Kiangsi province.

British missionaries are reported to have appealed directly to the foreign office at London, over the heads of the Peking legation, for assistance against the mutineers. They are quoted as saying the disaster is the most terrible in years. First reports that ten thousand had been slain in the destruction of Kiaufu Kinkiang Kienchen and other cities of the central Kiangsi province are believed to be exceeded by fresh atrocities.

Hundreds of foreign and American missionaries are in danger. American gunboats are coming. The Queros and the Monocacy are reported on their way from Kinkiang. The British are sending the Bee, the Fox Glove and the Cockchafer.

Several hundred British and American marines will be in the landing parties.

COKEVILLE WOMEN TO ENFORCE STATE LAWS

Three Members of Council of Wyoming Town Are Women and They Have Launched a Campaign

MEN LOST IN THE ELECTION

Cokeville, Wyo., June 22.—With three women, all of them vigorous workers for better morals and two of them active W. C. T. U. members, in charge of municipal affairs here, Cokeville is given a wide berth by bootleggers and evildoers.

The three women, Mrs. Ethel Stoner, mayor, Mrs. Retta Roberts and Mrs. Goldie Noblitt, councilmen (there being no Wyoming law providing for councilwomen), were elected over their two male opponents, regarded as "liberal" in their views.

They were elected on a platform of law enforcement, with special emphasis on prohibition law enforcement. The women have promised to make good on this platform.

However, Cokeville won't be a "blue law" town. One plank of the feminine platform reads: "It will not be our policy, if elected, to enact any stringent or 'blue laws,' believing that we already have good and sufficient laws for the present, but we will endeavor to enforce the laws we have now."

Mrs. Stoner is the wife of a wealthy sheepgrower, as is Mrs. Noblitt. Mrs. Roberts, who enjoys the distinction of having been the first white child born in Cokeville, is the wife of Richard Roberts, hotel proprietor and former mayor.

Rouge Is Ruinous

Chicago, June 22.—Rouge, as a routine is ruinous to complexion. No lips, however alluring, can survive the daily application of the lipstick.

Dr. William Lathrop Love, here for the annual convention of the American Institute of Homeopathy, made these statements today.

An attack on prohibition was made before the convention by Royal S. Copeland, city health commissioner of New York.

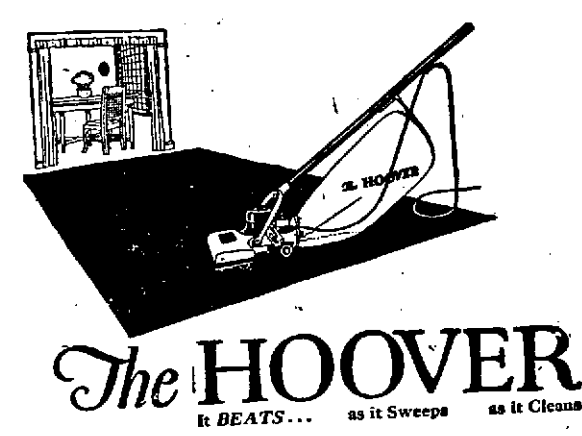

"So far the Volstead law has caused nothing but harmful results," he said.

"The only effect to date has been to drive the public to increased use of drugs, household concoctions and amateur distillations."

Attractive Burmese Women.

Full rosy cheeks, smiling mouth, jet black hair, rounded chin, retracted nose and a deep creamy complexion make the Burmese woman the most attractive specimen of Far Eastern femininity.

COUNTY NEWS

In and Around Fairview.

John Hixley transacted business at Richmond and Milton Friday.

Miss Cecil Thomas went to Muncie Friday to visit friends and will take up her school duties at the normal school at Muncie Monday.

John Mangold and family were in Connersville on business Saturday.

Mr. and Mrs. Milt Adams and son Claude called on Mrs. Thomas Crouch, who lives near Centerville Sunday. Mr. Crouch died Saturday and was buried Monday afternoon at Centerville.

Mr. and Mrs. Frank Huddleson and daughter Mary Catherine of Mays were the guests of Mr. and Mrs. Elmer Thomas and daughter Ruth Sunday.

Mrs. Edward Dolan and Mrs. Vern Dolan called on Mrs. Charles Dolan and family Sunday. Mrs. Charles Dolan is ill.

Mr. and Mrs. John Mangold and family were the guests at a pitch-in dinner at the home of Mr. and Mrs. Benton McConnell and family near Bentonville Sunday.

Mrs. Herman Smelser and son Wayne of Connersville were the guests of Mr. and Mrs. John Smelser and son Glen and Miss Eva Bowles Sunday.

Mr. and Mrs. Raymond Bowles and daughter Mary Elizabeth of Mays were the guests of Mr. and Mrs. John Brown Sunday.

David Kirkpatrick was in Fairview on business Tuesday.

Mr. and Mrs. Adam Herbert and son William and daughter Carrie were in Connersville Tuesday.

Chicken thieves have been operating in this vicinity recently. They stole forty young chickens from Mrs. John Smelser and thirty-six hens from Mrs. Curtis Schoil during the past week. Two dogs, one belonging to John Smelser and the other to Wilbur Piper, were also poisoned.

Clarksburg.

Mr. and Mrs. Walter Brodie, Mr. and Mrs. Charley Jones and son Wilbur motored to Connersville Sunday and spent the day with Mr. and Mrs. Ellmer Jones.

Mr. and Mrs. Will Osborne and son Lawrence motored to near Milan Sunday and spent the day with Mr. and Mrs. Milt Vail.

Weldon Grose is night clerk now at the DeArmond hotel in Greensburg.

Mr. and Mrs. Raymond Deiwert were the guests of home folks Sunday.

Mrs. Elmer Lewis and children are visiting her parents in Osgood.

The little child of Mr. and Mrs. Frank Tarplee is seriously ill.

Mrs. Lily Atkins of Grand Rapids, Mich., is visiting relatives here.

Mr. and Mrs. Clyde Crafton are the parents of a baby girl born Monday.

Brint Boling and Landy Lewis transacted business in Rushville Tuesday afternoon.

Miss Opal Boling and Miss Marie Doles attended the Epworth League convention at Liberty, Ind.

Mrs. William North and daughter Martha of Cincinnati are here visiting her parents, Mr. and Mrs. H. C. Doles.

Miss Hazel Johnson of Edinburg is visiting her grandparents, Mr. and Mrs. John Tarplee here.

Mr. and Mrs. Elmore Kanouse were the Sunday guests of Mr. and Mrs. Carver Davison.

Mrs. Abe Morford is spending a few days with Mr. and Mrs. Lonnie Ray, west of Greensburg.

Mr. and Mrs. Will Lawson were visiting relatives in Greensburg Sunday afternoon.

Mr. and Mrs. Ambrose Gohring and family of Rushville were the guests of Mr. and Mrs. Edwin Young the latter part of last week.

Mr. and Mrs. Abe Morford entertained the following guests Sunday: Mr. and Mrs. Lonnie Ray and family, of west of Greensburg, Mr. and Mrs. Henry Terhune and family of near Milroy, Mr. and Mrs. Raymond Morford, of north of town and Miss Pauline Morford of Indianapolis.

Mr. and Mrs. Joe Richards entertained the following guests at dinner Sunday Mr. and Mrs. Ambrose Gohring and family, and Ed Short of Rushville and Mr. and Mrs. Edwin Young.

Mrs. Miranda Young and daughter Lney were the guests of Mr. and Mrs. Fred Springmire a few days last week.

Mrs. Landy Lewis and daughter Clara motored to Andersonville Monday evening and called on Mr. and Mrs. Jim Hedrick.

Mr. and Mrs. Bert Clark and son of Greensburg were the guests of Mr. and Mrs. Wilbur Linville Sunday.

Mr. and Mrs. Guy Linville, formerly of Glenwood, are here visiting relatives enroute to Colorado. They are motoring through and are going for the benefit of their son's health.

Several from here attended the Children's Day exercises at Memorial south of here Sunday night.

The three churches of Clarksburg will hold a reunion picnic next Sunday in the Hamilton grove, each of here. Senator Albert Beveridge will speak in the afternoon.

Children's Day exercises will be held next Sunday night in the Christian church.

Mrs. Ot Johnson returned to her home in Edinburg Sunday after a few weeks visit here with relatives.

McCORMICK HAS STATE ROOM.

New York, June 22.—A luxurious state room is being held on the White Star liner Olympic, which sails Saturday, in the name of the International Harvester Company. It is believed here the state room may be for Harold F. McCormick.

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had backache and had to go to bed as I could not work. My mother and my whole family always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend your Vegetable Compound to my friends for female troubles."—Mrs. DELLA SCHOLZ, 1412 Salisbury Street, St. Louis, Mo.

Just think for a moment. Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is prepared from medicinal plants, by the utmost pharmaceutical skill, and superior methods. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Scholz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner. This is noted, by the disappearance, one after another, of the disagreeable symptoms.

PROHIBITION IS BLAMED

Dr. T. M. Alderman Speaks to Eclectic Medical Association

(By United Press)

Indianapolis, June 22.—Prohibition has increased crime and insanity in the United States, according to Dr. T. M. Alderman of New York City, who addressed the National Eclectic Medical Association here last night.

This is due to two causes, Dr. Alderman said. First, prohibition has stopped the outlet for certain innate tendencies of human nature; and second, physical harm resulting from bad liquor often leads to mental unbalance. War also is a contributory cause, Dr. Alderman said.

Woman's Nightmare is Cause of a Police Run

Indianapolis, Ind., June 22.—A woman's nightmare caused a run of the police emergency squad here.

Mrs. A. F. Jensen telephoned police headquarters she heard voices and thought burglars were trying to break in.

A five-mile run by the emergency squad. No burglars.

H. E. Robertson said he and his wife were sleeping in a tent in their backyard and Mrs. Robertson had a nightmare. The noise awakened a dog. The dog barked.

SCIENTISTS MEET IN A CONVENTION

Problems Of Harnessing Colorado River Is Big Issue With Pacific Division Of Experts

MEET AT SALT LAKE CITY.

Besides This Discussion, Conference Will Be Held By Affiliated Societies On Research Work

(By United Press)

Salt Lake City, Utah, June 22.—With the problems of harnessing the great potential power of the Colorado river as the principal subject of discussion, the Pacific Division of the American Association for the Advancement of Science opened its sixth annual meeting here today.

The meeting is being held in conjunction with a summer session of the American Association, which is represented by scientists from all parts of the country.

In addition to the wide discussion concerning the Colorado river, conferences will be held by members of affiliated scientific societies which will cover the entire field of scientific thought and research.

Dr. Barton Warren Everman, President of the Pacific Division, will preside at the general sessions of the convention, and will deliver the presidential address, the subject of which is "Conservation and Proper Utilization of Our Natural Resources."

Among the Colorado river subjects to be discussed at the symposium are:

Description and Physiography of the Colorado River basin, by Dr. Frederick J. Park, Deseret professor of the department of geology at the University of Utah.

Geology of the Colorado River Basin, with Reference to Engineering Problems, by Prof. Bailey Willis, head of the geology department of Stanford University.

Vegetation of the Colorado River Drainage Basin, by Dr. D. T. MacDougal, director of the Carnegie Deseret Laboratory at Tucson, Ariz.

Conservation of the Waters of the Colorado River from the Standpoint of the Reclamation Service, by Frank E. Weymouth, chief engineer of the United States Reclamation Service at Denver, Colo.

The Interstate and International Aspects of the Colorado River Problem, by Dr. C. E. Grunsky, vice-president of the Pacific Division of the American Association for the Advancement of Science, of San Francisco.

As showing a similar problem, Prof. E. V. Gautier, of the Faculty of Letters, University of Algiers, exchange professor at Harvard University, will discuss "The Algerian Sahara."

Dr. James Huxley Robinson, director of the New School for Social Research of New York City, will discuss evolution and its bearings upon human relations under the heading of "Our Growing Knowledge of Man's Place in the World."

Prof. H. P. Lotz, of Leiden, Holland, a well-known writer on evolution, will attend the Salt Lake meeting and will lecture on "The Origin of the Species by Hybridization."

Among the scientific societies scheduled to hold meetings are: The American Physical Society, the American Meteorological Society, the Cooper Ornithological Club, the Ecological Society of America, the Pacific Coast Entomological Society, the Pacific Slope Branch of the American Association of Economic Entomologists, Plant Physiologists, the Society of American Foresters, the Seismological Society of America, the Utah Academy of Sciences, and the Western Society of Naturalists.

Among the noted scientists who will be present are: Dr. David Starr Jordan, Dr. William E. Ritter, L. O. Howard, Dr. John C. Merriam, C. A. Kofoid, Francis B. Sumner, Prof. E. C. Franklin, E. G. Martin and C. L. Marlott.

ARE IN LOVE WITH ALABAMA

Mr. and Mrs. E. L. Runyan, Former Hoosiers, Visiting Here

Mr. and Mrs. E. L. Runyan of Foley, Alabama, former Hoosiers, are visiting at the home of Mr. and Mrs. E. C. McMahan in West 2nd street, Mr. Runyan being a brother of Mrs. McMahan.

Mr. and Mrs. Runyan formerly lived near Summitville, in the northern part of Madison county. They moved to Alabama seven years ago and like the state so well, they would never return to Indiana to live, Mr. Runyan says. He has large orange and pecan orchards which are now bearing. Watermelons and grapefruit are also grown in large quantities, according to Mr. Runyan. The lowest temperature last winter was seventeen degrees above zero, he says, and this summer the mercury has been above one hundred degrees, but the heat is no hindrance due to a strong salt breeze.

Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

Note: Write for valuable free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have. All about "Mother's Friend" to Bradford Regulator Company, B.A. 12, Atlanta, Ga. "Mother's Friend" is sold by druggists everywhere.

LLOYD GEORGE REGIME LOSES

Government is Defeated in Grand Committee of House of Commons in Vote on Bill

GENERAL ELECTION TALK

Defeat in House of Lords Wednesday Gives Opposition Something Definite to Work On.

By ED L. KEEN
London, June 22—The Lloyd George government was defeated in the grand committee of the house of commons today. The committee adopted an amendment to the National Health Insurance bill which the government had opposed. The house adjourned immediately following announcement of this defeat, to permit the government to consider its position.

Immediately the lobbies of parliament seethed with talk of a general election.

Defeat of the government in the house of lords yesterday, when the Palestine mandate policy was rejected, 60 to 20, despite the Earl of Balfour's maiden speech, followed so closely by today's defeat, gave opponents of the government something definite upon which to base their demands for resignation.

The government recently was defeated in the house on a minor question relating to teachers salaries, but the ministry ignored the matter because whips had not been put on and only a small house was present.

Lloyd George's political enemies, embittered by successes scored by the premier in typical Lloyd George fashion since his return from Genoa, feel that now is the time they can most embarrass him by forcing the issue. With British delegates at the Hague carrying on the premier's Genoa policy, resignation of the ministry probably would mean collapse of the entire project of reconciliation with Russia. Lloyd George's one big international project would be swept away.

The "die hards" who hate the premier because of his stand on Ireland, and the labor members of parliament who are bitter because 900,000 workers in engineering trades were forced to capitulate and accept employers' terms following a lock out, will be united against Lloyd George when the present issue upon which the government met defeat in committee comes before the house.

The government has two courses open. To pocket its pride, introduce the bill providing for national health insurance with the amendment forced upon it and say nothing, or revamp the whole measure, submit it to the house of commons and demand a vote of confidence on the issue.

The latter course is fraught with considerable danger, although a combination of the conservative majority of "dead" voters in the house and Lloyd George's persuasive eloquence would undoubtedly guarantee him a small majority.

Political observers say that unless Lloyd George himself is ready to resign he will be able to weather the storm and continue in office until after the Hague conference.

A general election is due in the fall anyway, and it is merely a question now of what Lloyd George considers the best time to hold one.

"LOVE NESTS" ARE SOUGHT

Further Investigation Made Into Killing of Clarence Peters

(By United Press)
New York, June 22—Search for two additional "love nests" where Walter S. Ward is suspected of having entertained a constant stream of fair women visitors during the absence of his wife and children at Palm Beach, was today the feature of developments in the case that culminated in the killing of Clarence Peters.

Ward's lawyers at White Plains sought his release on bail but interest centered in additional disclosures of alleged indiscretions by the millionaire banker's son here last summer.

ORAL ARGUMENTS HEARD

Indianapolis June 22—The supreme court today was considering oral arguments of attorneys in the appeal of four Culver bank robbers convicted of murdering Jacob Saine, a merchant, in the robbery. Attorneys for the convicted men pleaded on the theory that Saine was shot immediately after the robbery, was committed by a fifth man in the gang, who escaped.

DAVIS' ARGUMENTS WERE FALSE, CHARGE

Straton States That The Bible Is The Only Text Book That Stands The Test of Time

ANSWERS HARVARD ADDRESS

New York, June 22 — "God help the human race if the sort of science that we saw exemplified and glorified in the world war is to be looked up to as producing the modern ideals of the coming generation," said Dr. John R. Straton, pastor of Calvary Baptist church today, with regard to the assertion of William Morris Davis at Harvard commencement, that morals really belong more to the field of science than to the field of religion.

"Professor Davis' whole argument seems to have been founded upon a series of false assumptions. For one thing, he assumes that science has brought great benefit to the world but says nothing about the far greater benefit that religion has brought.

"Another argument of professor Davis is that religion, as he puts it, has trespassed upon the proper field of science because religious leaders have preferred to hold on to God's revelation rather than to bow to human speculation. I will only say that, whereas there is scarcely a scientific text book that is now ten years old, that is not out of date, the Bible, after all is the only one that stands the test of time."

LAUREL WOMAN IMPROVES

Mrs. Elva Davis, of Laurel who was operated on Wednesday at the Dr. Sexton hospital for an abscess, is improving as well as could be expected.
